THE EMERALD

The emerald is May's official birthstone. Unlike some birthstones, emerald is classified as one of four precious gemstones. Although the oldest emeralds date back 2.97 billion years and were first mined in Egypt, emeralds have been found in Canada, although they're rare. Canada's first emeralds were found in 1998 in Yukon Territory!

The Orient Express

In 1883, a luxurious passenger train called the Orient Express began serving the European continent and did so successfully for almost a century. Sadly, the emergence of air travel meant that it had to shorten its routes. On May 20, 1977, the Orient completed its last direct trip from Paris to Istanbul, the endpoints on their line.
