## 4-H Alberta Six-Week Intro Clubs Popular Among Calgary Families

by Lori Nielsen, Senior Program Coordinator for 4-H Intro Clubs

Ever since the launch of the initiative in September, 4-H Alberta's Intro Clubs have achieved success in various communities throughout Calgary. This pilot program has now hosted four introductory clubs dedicated to introducing the youth to the world of 4-H with two more currently running in April. Among these clubs are the renowned Explore 4-H program, a baking club, and four daytime homeschool clubs, each tailored to cater to the diverse interests of the young individuals in the region.

Youth programs like 4-H help develop positive well-being in young people. The 4-H Intro Club initiative is a great way for young people to develop important life skills and make new friends without a huge time commitment. This innovative program offers a refreshing alternative to year-long commitments, making it highly accessible for families with busy schedules.

4-H Intro Clubs will continue to be offered in various locations throughout the city until July. There will be two new clubs offered this spring including a six-week program starting on May 1 at the Kingsland Community Hall from 6:00 to 8:00 pm, and a "touring" club in June. The program is open to youth ages 9 to 18 and is limited to 15 members per club. Email [introclubs@4hab.com](mailto:introclubs@4hab.com) or visit [www.4hab.com/member-programs](http://www.4hab.com/member-programs) for more information.

## Fishing is Catch and Release Only!

At this time, only catch and release fishing will be permitted at Arbour Lake, until further notice. There will be no keeping of any fish of any kind of size! This is a result of Alberta Environment and Parks shutting down all fish stocking within the bow river drainage area, of which Arbour Lake is included. Due to whirling disease found in the Bow River and commercial fish culture operations, no fish may be kept. Any fish that cannot be returned to the water, must be surrendered to a staff member.

More information regarding whirling disease can be found at <http://aep.alberta.ca/fish-wildlife/wildlife-disease/whirling-disease/default.aspx>.

### Fishing

- May only be done from the designated fishing docks.
- Hooks must be Barbless and egg hooks are not permitted. No triple hooks are to be used. This ensures the survival of released fish.
- No live bait, corn, bread, minnows, smelts, fish or nets may be used to catch fish.
- Only one rod per resident may be cast at any one time and fishing lines must be attended to at all times.
- Random tackle box, bag and hook checks will be performed to ensure all Rules & Regulations are being followed.

## NOTICE

You CANNOT use live bait, corn, dough, bread, minnows, smelts, fish or nets to catch fish.

You CANNOT use barbed hooks, triple hooks or egg hooks!!!

**CATCH AND RELEASE ONLY**  
**THIS IS FOR ALL FISH OF ALL SIZES AND KINDS!**

Injured fish that cannot be returned to the water, **MUST** be handed over to a staff member for disposal.

## Eutrophication

Here is some information on how important it is to be careful with how much fertilizer you use on your lawn. When you use too much fertilizer on your lawn, the excess nutrients are carried away by the rain and other forms or irrigation. The nutrients mix with water and find their way into our beautiful lake. These nutrients cause the algae and plants in the water to multiply rapidly, creating an algae bloom. This excessive amount of algae prevents sunlight from reaching the bottom of the lake. The plants lacking sunlight will die at the bottom of the lake where decomposers will use up the oxygen. When a bloom occurs, there is too much organic matter ready to decompose and all the remaining oxygen in the water is used by decomposers to decompose dead plants. This can cause all our fish to suffocate from the lack of oxygen. With your help in preventing the overuse of fertilizer, we can work together to keep the lake healthy and beautiful for all residents to enjoy.
