A story of trust and transformation

Together, Calgarians and Calgary Municipal Land Corporation have made downtown neighbourhoods like East Village and The Culture & Entertainment District welcoming communities for all.

Great public spaces, architecture and master plans are just the beginning.

Since 2007, we've been transforming Calgary—brick by brick, block by block, idea by idea—creating places that connect, inspire, and redefine the way people experience our city. Every project, master plan, public plaza or cultural venue we create is designed to benefit Calgarians. To strengthen communities. To make Calgary a place people are proud to call home.

Learn more about CMLC's community-building work.

4-H INTRO CLUB

Grow Something New This Winter With 4-H Intro Clubs

Have you heard of 4-H? Many know 4-H for its long history in rural and agricultural communities, but today 4-H is thriving in cities, including right here in Northwest Calgary. Alongside our traditional, year-long 4-H clubs, we also offer a short-term program designed for families who want to explore 4-H before making a longer commitment.

4-H Intro Clubs are a six-week program for youth ages 9 to 15 that provides a hands-on introduction to the 4-H experience. These are not traditional clubs. During intro clubs, youth attend once a week for two hours, learn all about running meetings and try a different hands-on activity each session, giving them a fun and friendly way to explore what 4-H has to offer.

One popular winter activity is the Potato Pet Hair Garden, where youth learn about seeds, plant growth, and patience in a silly and hands-on way. Using a potato, paper towel, water, and chia or alfalfa seeds, participants create a “potato pet” with sprouting hair, then track growth over the week. Along the way, they practice observation skills, explore plant life cycles, and get a taste of science in action, all indoors during the cold winter months.

Try It at Home: Create your own Potato Pet Hair Garden:

- Wrap a potato in a damp paper towel or cotton strip.
- Draw a face and add googly eyes.
- Place it on a jar of water so the bottom touches the water.
- Spread chia or alfalfa seeds on top, like hair.
- Mist daily and watch the sprouts grow in four to seven days!

Learn more about intro clubs starting in January by visiting 4hab.com/member.

Send us your potato head photos or ask us a question at introclubs@4hab.com.

On Deerfoot Trail

by Garth Paul Ukrainetz

On Deerfoot Trail the potholes grow
A little larger every day
They never seem to fill them in
We zig and zag along the way

On Deerfoot Trail bad tempers show
The need for speed in rush hour mess
The faster lane ain't always faster
The quicker route ain't always best

On Deerfoot Trail the snow plows blow
They clear the slushy slop away
But cars still slide into the ditch
On icy road there's hell to pay

On Deerfoot Trail the tail lights glow
Like blood cells flow within a vein
The city's major artery
Bright Stampede Red this freeway train

On Deerfoot Trail a rodeo
Corralled commuters, Calgary
Bronc riding on this road together
Until we exit, until we're free

Tobogganing/Sledding Safety

by Alberta Health Services

Emergency Health Services (EHS) – Alberta would like to remind parents and children about toboggan/sledding safety tips. Injuries may result from collisions with stationary objects on the hill, such as trees, poles, rocks, or even collisions with other people. Unprotected falls can also result in more serious injury if you lose control at high speeds. However, everyone can be safe on the hill by following these reminders.

Equipment

- Always ensure your toboggan, or sledding device, is in good repair. Inspect it for any damaged or missing parts before each use.
- Be certain the operator is fully capable of staying in control of the sled at all times.
- Wear a ski helmet designed for use in cold weather and high speeds.

Hazards

- Avoid hills that are too steep or icy.
- Choose hills free of all obstacles such as trees, rocks, utility poles, benches, or fences.
- Beware of loose scarves, or clothing containing drawstrings, which could present a strangulation hazard if they become caught or snagged.

- Look out for others. Move quickly to the side after finishing a run and stay to the side of the sliding path when walking up the hill.
- Children should be supervised by an adult; try not to toboggan alone.
- Sledding at night is not advised.

Plan Ahead

- Anticipate weather changes and plan accordingly.
- Wear warm, insulating layers closer to the body, and wind/waterproof layers on the outside.
- Consider bringing extra sets of gloves and toques to exchange wet garments for dry ones.
- Take breaks out of the cold to warm up.
- Even when properly protected from the elements, the fingertips, toes, ears, the tip of the nose, and other high points on the face such as the forehead and cheek bones can be affected by frostbite; therefore, attempt to cover up any exposed skin.
- If frostbite has occurred, treat it by first getting out of the cold environment, or at least sheltered from any wind chill.
- Gently warm the affected skin by placing a warm hand over it, or by placing the affected part in warm - not hot - water until rewarmed.

News from the Friends of Nose Hill

by Anne Burke

On the Park's northern boundary, Alberta Government Telephone, in 1982, and Canadian Western Natural Gas, in 1990, had access rights. Carma Developments put waste in the MacEwan Glen ravine. Construction sites attracted four-by-fours and dirt bikes. Nose Hill Trail condition and use were studied between July 20 and September 20, 1993. Volunteers working in pairs came from the Nose Hill Park Users Group, Nose Hill Communities Board, and Calgary Field Naturalists Society. Their goal was to measure trail type and surface, width, and depth. An aerial photo mosaic marked the survey areas. Data was collected for the glacial moraine (the Hill plateau and side slopes), ravines (Many Owls and Porcupine Valley), and disturbed land. The time of day was morning (7:00 am to noon), afternoon (noon to 6:00 pm), and evening (6:00 pm to dark). During both the week and weekend, Hill use was greatest in the afternoon and evenings. On the weekend, people spent time in the ravines. However, during the week more were recorded on the plateau and side slopes. Pathway routes were widened by braiding but less rutted than trails. The greatest use was in disturbed sites, rather than on the moraine. All pathways and trails were used by cyclists, who preferred gravel pathways to grass trails. Walkers without dogs used pathways, unlike dog walkers in the ravines. A review revealed that areas damaged by vehicles, horse and cattle grazing, and gravel extraction were slowly regenerating, including severely damaged areas. Although some trails were rutted (and may remain so for a time) others had high grass growing in them without horse and vehicle traffic. Ravine trails were overgrown by tall grasses, thistles and nettles, so many people no longer used them.

Understanding Mental Health

by Recovery Alberta – Community Health Promotion Services

Mental Health is complicated. There are many ways to talk about it, and it can get confusing. To better understand, Mental Health Literacy developed a tool known as “the pyramid” that consists of four layers. The base of the pyramid is the largest, which is related to the number of individuals in this state. Therefore, as the pyramid gets smaller so does the amount of people who may experience this state. Let’s take a closer look at what the four levels of the pyramid are:

1. No Distress, Problem, or Disorder

This is the bottom level and the largest of the pyramid. This is when everything is okay and you are not experiencing any mental distress, problems, or disorders.

2. Mental Distress

The next layer up is mental distress. Distress releases a signal from our brain indicating the need to adapt to our environment and that there is a problem to solve. Triggers of distress are unavoidable, but the process is necessary for life-skills promoting and building resilience. An example is having an argument with your boss. Once you figure out a solution the mental distress goes away.

3. Mental Health Problem

The layer second from the top is mental health problems which is an indicator that we are having difficulties and may need external help such as counselling or community support. This can arise from a stressor of great amount, such as the death of a loved one.

4. Mental Disorder/Illness

Located at the top of the pyramid is mental illness. This occurs when there is disruption in usual brain functioning. This disruption is the result of our genes and our environment from the time of conception and throughout the lifespan. Examples of this can be the diagnosis of ADHD, Clinical Depression, and Anxiety.

Now that we have a better understanding of these terms, here are everyday things you can do for your mental health, also known as the Big Five to Thrive!

The Big Five to Thrive

- 1. Exercise:** This could be a walk in the community or a session at the gym.
- 2. Sleep:** The optimal amount needed varies for everyone. Put away your phone and snuggle up for a good night’s sleep.
- 3. Supportive Relationships:** Develop and maintain positive relationships with family, friends, and community. Surround yourself by those who lift you up.
- 4. Nutrition:** Incorporate healthy foods that are easy to make and taste great!
- 5. Helping Others:** Get involved in your community coalitions or volunteer with local charities.

It has been shown that improving even one of these areas can improve the other areas. Consider steps that are practical to you to better your mental health!

Monthly Property Tax Payments Save You Time and Money

by The City of Calgary

Tax Instalment Payment Plan (TIPP) is the most popular way to pay property tax in Calgary. Here's why:

- You pay the same amount as your tax bill, but in smaller, easier to manage monthly payments.
- Automatic monthly payments come out on the first day of each month, helping you avoid late payment penalties.
- No extra fees and no need to re-enroll each year. TIPP continues until you cancel.

It's easier than ever to join TIPP. Our online process streamlines registration and confirms your enrolment, allowing you to join fast and easily from the comfort of your home. All you need is your property's roll number and your banking details.

You can enroll anytime during the year, and we'll adjust your payments to ensure your tax bill is fully paid by year's end. If you join for January 1, your tax payments will be spread over 12 months, if you join for February 1, your payments will be spread over 11 months, and so on.

Your 2026 property tax bill will be mailed out in May. To avoid late payment penalties, you must join TIPP or pay the total amount of your 2026 property tax bill before the payment deadline of June 30, 2026.

Join TIPP today at calgary.ca/TIPP to get started and enjoy easier budgeting for the years ahead!

Chinook Blast: Calgary's Signature Winter Celebration Is Back

by The City of Calgary

Chinook Blast is Calgary's ultimate winter festival that showcases the very best of our city. For six years, this celebration has brought winter magic to life—and we're just getting started.

From January 30 to February 16, Chinook Blast returns, promising the most spectacular experience yet. We're turning up the heat at Eau Claire Plaza, transforming it into a dazzling winter wonderland filled with vibrant art installations, live music, and unforgettable adventures.

Built by Calgarians, for everyone, Chinook Blast is proudly local. It's a family-friendly, inclusive festival that celebrates creativity and community while drawing visitors from across Calgary and around the world.

Join us as we make winter extraordinary. Learn more at chinookblast.ca.

Protect Your Household Water Lines and Meter from Freezing

by The City of Calgary

Every winter, some Calgarians will experience frozen water pipes, service lines, and water meters, resulting in a water outage. The City's Frozen Pipes Prevention Program works proactively with homes considered at higher risk due to factors such as location, depth and configuration of water pipes, and a history of freezing.

Recently we have noticed an increase in frozen pipes in homes that are typically at a lower risk, where taking some of the steps below could have prevented household pipes from freezing. Ways to avoid freezing include:

- Keep your thermostat at a minimum of 15°C, even if you're away from home.
- Eliminate any cold drafts in unheated areas where water supply lines are located. This can include basements, crawl spaces, attics, garages, and under bathroom and kitchen cabinets.
- Repair broken windows, check doors, and insulate areas that allow cold exterior air to enter.
- Insulate your hot and cold-water pipes located in cold areas.
- Open interior doors and cabinets in cold areas to allow heat from the house to warm unprotected pipes.
- Turn off, disconnect, and drain the water line to outside faucets, garden hoses, pools, or decorative water features.
- If your hot water tank is in a maintenance room outside of your home, make sure the area is adequately heated.
- Regularly run water in your pipes through everyday use.

Visit calgary.ca/frozenpipes to learn more, including actions you can take if you suspect you have frozen pipes.

Blume

A P A R T M E N T S F O R R E N T

Egyptian Gem

January's birthstone is the garnet, but did you know that this gem was used by ancient Egyptians! As far back as 3000 BC, Egyptians used garnets for their jewellery, amulets, and burial artifacts. The Egyptians considered garnets a symbol of royalty and power. Perfect for any Pharaoh!
