## The Birth of a Legend!

On January 8, 1935, in Tupelo, Mississippi, a star was born! Elvis Aaron Presley, who would go on to be one of the most culturally significant figures of the 20<sup>th</sup> century was born. Can you believe that he would be 91 if he were still alive today?! What a legend!

# Caring for an Aging Parent: Strategies for When the Going Gets Tough

by Nancy Bergeron, R. Psych | [info@nancybergeron.ca](mailto:info@nancybergeron.ca)

## Emotional Strategies (Inner Work and Regulation)

### 1. Acknowledge Complex Feelings

Allow yourself to feel grief, anger, guilt, resentment, or sadness—without judgment. Write or talk about your emotions rather than suppressing them. “It’s okay to love my parent and still feel hurt by them.”

### 2. Release the Hope for Transformation

Accept that your parent may never change, apologize, or become kind. Focus on who you want to be in this relationship—not who you wish they were. Acceptance is not approval—it’s choosing peace over constant disappointment.

### 3. Separate Compassion from Tolerance

Compassion = understanding their limitations and pain. Tolerance = letting them mistreat you. You can have empathy while maintaining strong boundaries.

### 4. Name and Limit Emotional Triggers

Identify patterns that consistently lead to hurt (e.g., criticism, manipulation, guilt trips). Develop calm exit strategies when tension rises (“I need to step out for a minute,” or “Let’s talk later.”)

## 5. Practice Grounding Techniques

Use breathing exercises, mindfulness, or sensory grounding before and after visits. Create “emotional decompression rituals”—e.g., a walk, journaling, or music after caregiving tasks.

## 6. Reframe Your Role

Instead of “being the good child,” think of yourself as a care coordinator—doing what’s necessary, not what’s emotionally reciprocal. This mental shift reduces guilt and over-responsibility.

## 7. Find Validation Outside the Relationship

Seek empathy and support from friends, therapy, or caregiver groups. Don’t expect emotional reciprocity from your parent; that’s not where healing will come from.

## Situational Strategies (Practical Boundaries and Care Structures)

### 1. Clarify What You Can and Cannot Do

Define your caregiving “job description.” Example: “I manage their medication and groceries, but I can’t

handle daily visits." Say it out loud, write it down, and share with other family members if needed.

## 2. Establish Firm Communication Boundaries

Limit exposure to verbal abuse or manipulation. End conversations that become cruel or degrading: "I'm not willing to be spoken to that way. I'll come back when you're ready to talk respectfully."

## 3. Use Neutral, Brief Responses

When provoked, respond with calm neutrality ("I hear you," "That's your opinion," "Okay"). Avoid arguing, explaining, or defending—it fuels conflict.

## 4. Set Structured Routines

Predictability helps both you and your parent. Schedule visits or calls at consistent times to minimize last-minute demands.

## 5. Engage Outside Help When Possible

Look into: Home care aides or respite programs, adult day centers, geriatric care managers, volunteer respite programs or faith-based support. Even a few hours of relief can help you sustain caregiving long-term.

## 6. Protect Your Physical Space

If your parent lives with you, designate "off-limits" areas or private times. If you live separately, establish boundaries around unannounced visits or excessive calls.

## 7. Use Written Communication for Sensitive Topics

For logistics (medications, finances, appointments), use texts or emails—it reduces emotional escalation and provides a record.

## 8. Plan for Respite and Breaks

Schedule non-negotiable downtime—a full day or weekend off every few weeks. Even short breaks prevent burnout and resentment.

## 9. Involve Professionals for Tough Conversations

Use a doctor, social worker, or counselor to mediate when your parent refuses help or denies issues. Hearing it from a professional, lands better than hearing it from a child.

## 10. Prepare for Emotional Pushback

Difficult parents often use guilt, martyrdom, or control when they feel powerless. Recognize it as fear, not truth. "They're scared of losing control—that's not mine to fix."

## Give Your Parents Comfort with a Reverse Mortgage

- Extra income, no monthly payments
- Stay in the home they love
- Leave a living inheritance

Call today to give them freedom and peace of mind.

## Asian-Style Chicken Noodle Soup

by Jennifer Puri

A comfort food ideal for cold weather, variations of chicken soup can be found in cuisines around the world.

Chicken soup is typically made with chicken broth and can include pasta, noodles, rice, dumplings, barley, leeks, celery, onions, carrots, matzo balls, and potatoes.

In some cultures, chicken soup is believed to have healing properties and is served to the sick and the elderly. Chicken soup is filled with protein and vitamins which can help boost immunity.

**Prep Time:** 20 minutes

**Cook Time:** 25 minutes

**Servings:** 3 to 4

### Ingredients:

- 1 lb boneless, skinless chicken breasts, cubed
- 2 green onions, finely sliced
- 3 heads of bok choy, quartered
- ½ red bell pepper, thinly sliced
- 2 carrots, thinly sliced
- 1 tsp. crushed garlic
- 2 tsp. crushed ginger
- 2 tsp. sodium reduced soya sauce
- 1 tbsp. olive oil
- 2 tbsp. rice vinegar

- 1 tsp. red chili flakes
- 6 cups sodium reduced chicken broth
- 1 cup water
- 4 oz. vermicelli noodles broken into thirds

### Directions

1. Heat the olive oil in a large pot, add the green onion and sauté for a couple of minutes.
2. Next add ginger, garlic, and chicken cubes and stir until chicken is no longer pink, about 2 to 3 minutes.
3. Add carrots, bok choy, and red bell pepper, and sauté for a couple of minutes.
4. Lastly add soya sauce, fish sauce, red chili flakes, stock, and a cup of water, and bring to a boil. Reduce heat and simmer for about 12 minutes or until chicken is tender. Add the broken noodles to the pan and simmer until the noodles soften, approximately two minutes.
5. Serve soup with green onion cake if desired.

## 4-H INTRO CLUB

# Grow Something New This Winter With 4-H Intro Clubs

Have you heard of 4-H? Many know 4-H for its long history in rural and agricultural communities, but today 4-H is thriving in cities, including right here in Northwest Calgary. Alongside our traditional, year-long 4-H clubs, we also offer a short-term program designed for families who want to explore 4-H before making a longer commitment.

4-H Intro Clubs are a six-week program for youth ages 9 to 15 that provides a hands-on introduction to the 4-H experience. These are not traditional clubs. During intro clubs, youth attend once a week for two hours, learn all about running meetings and try a different hands-on activity each session, giving them a fun and friendly way to explore what 4-H has to offer.

One popular winter activity is the Potato Pet Hair Garden, where youth learn about seeds, plant growth, and patience in a silly and hands-on way. Using a potato, paper towel, water, and chia or alfalfa seeds, participants create a “potato pet” with sprouting hair, then track growth over the week. Along the way, they practice observation skills, explore plant life cycles, and get a taste of science in action, all indoors during the cold winter months.

### Try It at Home: Create your own Potato Pet Hair Garden:

- Wrap a potato in a damp paper towel or cotton strip.
- Draw a face and add googly eyes.
- Place it on a jar of water so the bottom touches the water.
- Spread chia or alfalfa seeds on top, like hair.
- Mist daily and watch the sprouts grow in four to seven days!

Learn more about intro clubs starting in January by visiting [4hab.com/member](http://4hab.com/member).

Send us your potato head photos or ask us a question at [introclubs@4hab.com](mailto:introclubs@4hab.com).

## News from the Friends of Nose Hill

by Anne Burke

On the Park's northern boundary, Alberta Government Telephone, in 1982, and Canadian Western Natural Gas, in 1990, had access rights. Carma Developments put waste in the MacEwan Glen ravine. Construction sites attracted four-by-fours and dirt bikes. Nose Hill Trail condition and use were studied between July 20 and September 20, 1993. Volunteers working in pairs came from the Nose Hill Park Users Group, Nose Hill Communities Board, and Calgary Field Naturalists Society. Their goal was to measure trail type and surface, width, and depth. An aerial photo mosaic marked the survey areas. Data was collected for the glacial moraine (the Hill plateau and side slopes), ravines (Many Owls and Porcupine Valley), and disturbed land. The time of day was morning (7:00 am to noon), afternoon (noon to 6:00 pm), and evening (6:00 pm to dark). During both the week and weekend, Hill use was greatest in the afternoon and evenings. On the weekend, people spent time in the ravines. However, during the week more were recorded on the plateau and side slopes. Pathway routes were widened by braiding but less rutted than trails. The greatest use was in disturbed sites, rather than on the moraine. All pathways and trails were used by cyclists, who preferred gravel pathways to grass trails. Walkers without dogs used pathways, unlike dog walkers in the ravines. A review revealed that areas damaged by vehicles, horse and cattle grazing, and gravel extraction were slowly regenerating, including severely damaged areas. Although some trails were rutted (and may remain so for a time) others had high grass growing in them without horse and vehicle traffic. Ravine trails were overgrown by tall grasses, thistles and nettles, so many people no longer used them.

# Tobogganing/Sledding Safety

by Alberta Health Services

Emergency Health Services (EHS) – Alberta would like to remind parents and children about toboggan/sledding safety tips. Injuries may result from collisions with stationary objects on the hill, such as trees, poles, rocks, or even collisions with other people. Unprotected falls can also result in more serious injury if you lose control at high speeds. However, everyone can be safe on the hill by following these reminders.

### Equipment

- Always ensure your toboggan, or sledding device, is in good repair. Inspect it for any damaged or missing parts before each use.
- Be certain the operator is fully capable of staying in control of the sled at all times.
- Wear a ski helmet designed for use in cold weather and high speeds.

### Hazards

- Avoid hills that are too steep or icy.
- Choose hills free of all obstacles such as trees, rocks, utility poles, benches, or fences.
- Beware of loose scarves, or clothing containing drawstrings, which could present a strangulation hazard if they become caught or snagged.

- Look out for others. Move quickly to the side after finishing a run and stay to the side of the sliding path when walking up the hill.
- Children should be supervised by an adult; try not to toboggan alone.
- Sledding at night is not advised.

### Plan Ahead

- Anticipate weather changes and plan accordingly.
- Wear warm, insulating layers closer to the body, and wind/waterproof layers on the outside.
- Consider bringing extra sets of gloves and toques to exchange wet garments for dry ones.
- Take breaks out of the cold to warm up.
- Even when properly protected from the elements, the fingertips, toes, ears, the tip of the nose, and other high points on the face such as the forehead and cheek bones can be affected by frostbite; therefore, attempt to cover up any exposed skin.
- If frostbite has occurred, treat it by first getting out of the cold environment, or at least sheltered from any wind chill.
- Gently warm the affected skin by placing a warm hand over it, or by placing the affected part in warm - not hot - water until rewarmed.

## Happy New Year Ward 2!

As we start 2026, I want to share a few important updates that matter to households across our community.

### Review Your 2026 Property Assessment

Property assessments arrive on January 14, and the Customer Review Period runs until March 23. Your assessment helps determine your share of property taxes, and this is your chance to confirm that your assessment is accurate and reflects real market value. When reviewing, check that the value is reasonable as of July 1, 2025, confirm that the property details are correct, and compare your assessment with similar homes in your neighbourhood.

You can estimate your 2026 bill at [calgary.ca/taxcalculator](https://calgary.ca/taxcalculator). For detailed property information and comparison tools, log in at [calgary.ca/mytax](https://calgary.ca/mytax). Questions can be directed to 3-1-1 or [calgary.ca/assessment](https://calgary.ca/assessment).

### Nominate a Neighbour for the Calgary Awards

Do you know a Ward 2 resident, group, or business making a meaningful impact? Consider nominating them for a Calgary Award. Categories include Community Advocate, Youth, Arts, Education, Accessibility, Environmental Achievement, and more. Nominations close January 26 at [calgary.ca/calgaryawards](https://calgary.ca/calgaryawards).

### Stay Safe Around Storm Ponds

Storm ponds may look frozen, but ice conditions on them are never safe. Water levels change constantly and contaminants weaken the ice. Please keep children and pets away. For safe winter activities and outdoor rinks, visit [calgary.ca/winteractivities](https://calgary.ca/winteractivities) and [calgary.ca/rinks](https://calgary.ca/rinks).

### Prevent Frozen Household Water Lines

Frozen pipes can cause major damage, but simple steps can reduce the risk. Keep your thermostat set to at least 15°C, seal cold drafts in basements and crawl spaces, insulate exposed pipes, and disconnect exterior hoses. Allow warm air to circulate around plumbing and run water regularly. More information is available at [calgary.ca/frozenpipes](https://calgary.ca/frozenpipes).

Thank you for staying informed. My office is here to support you throughout the year, and you can always reach us at [ward2@calgary.ca](mailto:ward2@calgary.ca).
