Neighbour Day

Saturday, June 21 is Calgary's 12th Annual Neighbour Day, a day to celebrate Calgary's "neighbourliness" and community spirit that was on full display after the 2013 floods. The City of Calgary's website (Calgary.ca/neighbour-day) has a free guide for planning a block party, and other resources.

HIGHLAND PARK PLANNING AND DEVELOPMENT REPORT

by D. Jeanne Kimber

As reported last month, Development Permit DP2024-04247 for two front and rear semi-detached buildings with suites at 3827 Centre B Street NW was overturned by the Subdivision and Development Appeal Board (SDAB). The primary concern expressed by the SDAB pertained to window wells protruding into the 1.2m wide side yards and reducing the amount of usable walkway in the side yards to unsafe widths. This ruling was an eye-opener, and I have since communicated to the City Planning Department that changes are needed to the Land Use Bylaw to correct the rules in the bylaw. If there are to be window wells projecting into the side yard, then the width of the side yard needs to be increased to accommodate both the window wells and a safe, usable walkway. This is particularly important for residents who need to use the side yard to get to the garage or the waste and recycling bins or who live in one of the rear buildings on a property. Just think of how you would manoeuvre a baby stroller through a space that is only 0.44m (about 1 ½ ft) wide. Until changes are made to the Land Use Bylaw, we will be scrutinizing any new DP applications for this design defect.

The following applications are either new or still under review:

- DP2025-00515 is a new application for a four-plex with suites at 3827 Centre B St NW. The application is in response to the overturning of DP2024-04247.
- DP2024-06404 for two rowhouse buildings at 115 36 Avenue NE. There would be 18 two-storey units and ten basement suites, as well as a commercial space at the corner of Centre Street and 36 Avenue NE. The proposal does not appear to conform to the current land use so there would have to be a land use change application made.
- DP2024-09009 at 423 33 Avenue NW for a four-plex with suites.
- DP2024-06568 at 4020 1 Street NW for a four-plex with suites. Revised plans have been received.
- DP2024-07701 for a four-unit rowhouse with suites at 3423 2 Street NW. Revised plans have been received.
- LOC2024-0307 for a land use change at 4220 Centre Street NE from R-CG to MU-1. There is some question about whether the proposed development project for this property would conform to MU-1 land use.

- DP2024-05535 for two semi-detached buildings at 215 41 Avenue NW. An appeal was filed with the SDAB concerning window wells projecting into the side yards, unusable side yard walkways, and the front setback. We have just received revised plans from the applicant that appear to have resolved the obtruding window well issue. It is quite possible that a satisfactory resolution to that problem will negate the need for the appeal to proceed.
- DP2024-08783 137 40 Avenue NW for five-unit rowhouse with suites. This application is a revision of previously approved DP2024-00453.
- DP2024-07824 for four rowhouse buildings (16 units with suites) at 4016 – 4024 3 Street NW is under review. The review process is likely to be lengthy.
- DP2024-08555 is for two rowhouse buildings to be built where 36 Avenue NE curves around onto Centre A Street NE. Comments are still being solicited.
- DP2024-08166 for a single semi-detached with suites at 422 36 Avenue NW still shows little progress.
- DP2024-08308 218 32 Avenue NE for a semi-detached.

The City's Public Notices show that there have been no new DP or LOC applications approved in the past month other than very minor ones. These Public Notices (<https://www.calgary.ca/development/public-notice.html>), the Development Map (developmentmap.calgary.ca), and the Land Use Bylaw (<https://www.calgary.ca/planning/land-use.html?redirect=/landusebylaw>) are invaluable sources of planning information for community residents.

We Are Bringing a Little Free Pantry to Highland Park!

Everything is getting more expensive. Little Free Pantries are a way for neighbours to share when we can and receive when we experience need.

Like Little Free Libraries, our pantry will be on a neighbour's lawn. Our team of volunteers and donors will manage the pantry, and ensure it is looked after and meeting the needs of our community.

Give what you can	
	Place unexpired snacks, dry pantry staples, ready-to-eat items, or personal care products in the pantry. Give what you would want to receive.
Take what you need	
	If you find items inside and you need them, take them. Please take only those items you need. You determine your need.
Things to note	
	If the shelves are full or you have items that are not on our list, please donate elsewhere. Don't leave anything outside the pantry; we appreciate your generosity but want to keep the neighbourhood tidy.

If you would rather contribute financially or would like to volunteer your time with this project, please reach out. Email us at calgarylittlefreepantries@gmail.com.

Check our Facebook page for pantry locations and updates: Calgary Little Free Pantries.

Here are some examples of dry pantry staples that are okay in the winter temperatures:

- Peanut butter and jelly in plastic containers
- Boxed/bagged grains/beans: rice, couscous, quinoa, red beans, white beans
- Pasta: dry pasta, bagged pasta meals, mac n' cheese
- Cereal: cold and hot
- Peanut butter and other snack crackers
- Dried fruits
- Granola bars, chocolate bars
- Cookies

Here are some personal care items that are okay in the winter temperatures:

- Band aids
- Pads/tampons
- Deodorant
- Chapstick
- Kleenex travel packs

News from the Friends of Nose Hill

by Anne Burke

Across North America vast herds of bison destroyed woody plants in the area by horning, rubbing, and feeding on bark. Males made their mark during “rutting” (mating season). Trees are not naturally part of our vegetation in a tallgrass prairie landscape, due to risks from severe weather events, drought, insects, diseases, and climate change. Calgary has trees on both public and private lands, in parks, natural areas, and green spaces. However, 77% of the urban canopy is on private land. A Guide for Plant Appraisal estimates our urban forest on public land is valued at \$1.3 billion. The urban forest is aging, and other trees are lost to development. Planting 3,500 trees per year will maintain the status quo. The plan is to plant another 4,000 trees per year by 2060.

The City owns and offers Calgary Open Data. Enter your address to view City trees and zoom in to the neighbourhood level. A mobile device near a tree will pan to your location. Rank trees by The Alberta Tree Species Rating Guide. Reporting a City tree? You can now use the 3-1-1 Mobile App. Ask about a young tree that needs help, a mature tree, or a Heritage Tree. On your property, you may need a permit to remove a tree. Where a tree once was may be a good spot to plant a new one. Enjoy YYC Trees Guided Walks. In-person workshops and online programs are Pruning Q and A, Keep Your Tree Happy and Healthy, and Pest and Disease Treatment. Information sessions are 1.5 hours long. Urban Forestry Technicians offer advice. Space is limited. Register for one session only, since the content at each will be the same. For locations and dates check out <http://www.calgary.ca/parks/trees/education-workshops.html>.
