News from the Friends of Nose Hill

by Anne Burke

The Open Space Plan says that our city's greatest asset is the natural environment and wildlife, so we should foster stewardship with nature education programs. Calgary parks are linked by pathways and green belts. We must protect and conserve the river valley system, unique prairie, urban forest, and foothill ecosystems.

The Plan conforms with provincial land use policies and the Municipal Government Act. There are some general principles. We will preserve natural environment parks and environmentally significant areas, enhanced by restoration to prevent loss. Site-specific plans recommend that we record biophysical inventories and historical resources for cultural landscapes such as Nose Hill.

The Open Space Plan is under review. One of the aims is learning how to improve natural environment parks through decision-making that puts the environment first. Natural habitats offer places for wildlife to find food, water, cover, and to raise their young. We can reconnect, rest, and mentally recharge. Nose Hill offers sacred indigenous spaces of culture—past, present, and future.

Connect: Calgary's Parks Plan, Phase 1 engagement ran from April 17 to May 19. A *What We Heard Report* will be published online this summer. Phase 2 starts in October 2023.
