## 360 Degrees

Without turning their heads, rabbits can see nearly 360 degrees, as well as high above themselves. Their eyes are placed high and to the sides of their head which gives them this range of sight, though they do tend to be farsighted.

## Part of your community.

For 30 years, **Shibley & Company** has supported our northwest Calgary neighbours in all their legal matters.

Vilma and her team deliver effective legal counsel combined with personalised service, for all client circumstances.

Conveniently located in the **Beddington Towne Centre Mall.**

## **News from the Friends of Nose Hill**

*by Anne Burke*

The Calgary area has been the subject of many geological studies in scientific papers, field guides, and monographs, including glacial mapping of Nose Hill. The top of Nose Hill contains gravel deposited by the ancient Bow River, also carrying sand and mud, flowing east out of the mountains and reaching the level of the present hilltop. There may have been as many as 20 major glacial advances and retreats in what is now the Calgary area.

During the last one to two million years of earth history, ice sheets shaped the landscape. The continuous plain to the north, and on the east and west flanks of Nose Hill, were shaped by glacial meltwater from nearby ice. As the modern Bow River developed, it created a broad valley and the southern flanks of the Hill. A large lake was produced by an ice dam on the River. On its North and East, Nose Hill is bounded by Beddington and Nose Creeks. To the west, Big Hill Springs Coulee is what remains of the earlier glacial spillway system.

Nose Hill provides spectacular views from which to interpret the geological history of the Bow River Valley and its tributaries, as well as the uplands across the valley to the south. The boundary between eastern and western ice sheets is the result of a landslide from Mt. Edith Cavell. As the valley glacier advanced it was deflected southward by eastern ice and glacial erratics (large boulders) mark its former path.

# February Is Heart Month

by Alberta Health Services

Do you know the signs and symptoms of a heart attack and what to do if someone experiences these? Knowing may make the difference between life and death. Recognizing and responding immediately to the warning signs of a potential heart attack may significantly improve survival and recovery. February is Heart Month: take the time to be heart safe and learn how you can reduce your risk.

### Common Signs of a Heart Attack

(Any, or all, of these signs and symptoms may occur)

- Chest discomfort described as simply a mild pressure up to a 'crushing' pain; may also be 'squeezing' or a 'heavy' sensation.
- Discomfort may move to the shoulders, arm, neck, or jaw.
- May include shortness of breath, sweating, or nausea/vomiting.
- Signs may vary person to person and can differ between men, women, and the elderly.

### Heart Attack Risk Factors

- Obesity\*
- Sedentary lifestyle\*
- Smoking\*

- High cholesterol\*
- Age/Gender
- Family history

Speak with your doctor about how to treat your modifiable (\*) risk factors and learn to be heart safe.

### What To Do When Seconds Count

- Call 9-1-1, immediately. Early treatment can greatly reduce heart damage and be the difference between life and death.
- Treatment starts the moment EMS arrives. Paramedics can provide oxygen, start an intravenous, and perform an electrocardiogram (ECG).
- Paramedics can also administer important medication(s) in the early minutes of a heart attack to lessen heart damage.
- During transport, EMS will share information with the hospital so that definitive treatment can begin immediately upon arrival.
- Take a CPR/AED course. Training is widely available from many reputable organizations. It's easy and could make a significant difference in the outcome of someone experiencing a heart attack.

## 4-H INTRO CLUB

### Youth “Learn to Do by Doing” with 4-H Intro Clubs

The 4-H motto is “learn to do by doing.” That is the idea behind 4-H Intro Clubs for youth aged 9 to 15. These six-week clubs give young people a chance to try new activities, learn practical skills, and explore their interests in a hands-on, low-pressure way. Youth get a taste of what it would be like to be a member of a traditional 4-H Club in these short programs, but the impact can be significant.

Intro Club members also have access to bonus events. Past events like the University of Calgary Vet Science Day and SAIT workshops in cooking and welding have allowed participants to explore careers, skills, and hobbies in a real-world setting. These events give youth experiences they may not get at school or at home.

Many bonus events include exposure to agriculture. Farm tours and projects let youth see where food comes from, learn about animals, and understand the work involved in growing plants or raising livestock. For children in the city, this connection to the local food system and community is especially valuable.

New bonus events are planned, including a microgreens workshop, a farm tour, an equine therapy workshop, and family tours at 4-H on Parade. Once a youth registers in an Intro Club, they can sign up for any available bonus events, most of which are free. These opportunities help children stay curious and learning outside regular club meetings.

Through Intro Clubs and bonus events, youth practice skills, explore interests, and gain experiences that help them make informed choices about hobbies, school projects, and future goals. At the same time, they connect with their community and learn about the role of agriculture in everyday life.

#### Try This at Home: Track Your Food

Pick one food item in your home and trace how it gets from farm to table. Who grows it? How is it processed or packaged? Why is it important to your community? This simple activity helps youth understand where food comes from and connects them to the local food system.

Learn more about Intro Clubs and bonus events at [4hab.com/member-programs/](http://4hab.com/member-programs/) or email [introclubs@4hab.com](mailto:introclubs@4hab.com).

## Word of the Month

**Malapropism:** noun (mal-uh-prop-iz-uhm)

The unintentional use of a word that sounds somewhat like the one intended but is very wrong in the context.

Jane was so nervous about her speech she did not realize she had made a malapropism until an audience member made a joke about her word use.

## Palms

What kind of tree  
fits in your hand?

A palm tree

# BUSINESS CLASSIFIEDS
