News from the Friends of Nose Hill

by Anne Burke

We were contacted about restoration work at Nose Hill. Alberta Native Plant Rescue has some native grasses they've rescued from development sites around Calgary and can plant them out. Past stewardship projects were in Fish Creek Park and Cochrane area. Native species are popular but are at increasing risk from invasive species (weeds) and land development. This Volunteer Group gathers a variety of native grasses and rare plants, then safely relocates them. Some are rough fescue grass, the Prairie sage, blanket flower, blazing star, yarrow, and more. When the native grassland restoration project involves sharing seedlings with the public, participants should bring clean tools and be dressed appropriately.

This year's World Migratory Bird Day theme, Shared Spaces: Creating Bird-friendly Cities and Communities, highlights the urgent need for urban planning and protecting birds. It's time to rally our community and Calgary is certified as bird friendly. Saturday, May 10 marks peak spring migration in Canada. Every action counts to help save bird lives. <https://www.birdday.ca/>.

Nature Alberta is the coordinator of Important Bird and Biodiversity Areas (IBAs) for Habitat Stewardship, enlisting community and government support. National partners include Birds Canada and Nature Canada. The program was initiated in the 1980s by BirdLife International. Nature Alberta is responsible for recruiting volunteer caretakers who collect bird data; they conduct at least one bird count per year (preferably during migration) and submit the results to eBird Canada. Some other duties are conducting site assessments, restoring habitat, raising awareness, and advocacy efforts. There are currently over 600 IBAs across Canada, including 48 in Alberta all viewable on a Google map. An online directory tracks locations, birds, habitats, threats, and conservation issues. You can access the database, interactive maps, desktop tools, and downloadable PDF maps at <https://naturealberta.ca/habitat-stewardship/>.

New Life...

April is always a fun month in preschool! It's when our ducks arrive! This is now a yearly tradition that we all look forward to! The children (and adults) were so excited when the duck eggs arrived, and we patiently waited every day for them to hatch! On average it takes 28 days for the ducks to hatch, and as the days went by the excitement levels grew and grew! The day finally arrived! The eggs started to crack and just like that we had ducklings! Each class voted and picked a name for their class duck, and we all enjoyed watching how they grew and changed over the weeks that we took care of them. Our favourite part was teaching them to swim! The ducks are now happily back at the farm enjoying a more peaceful lifestyle! Thank you to the parents who helped organize the ducks, making sure we had everything we needed.

This month, soccer with Triple Meg returns and each class will take part in four sessions with Coach Steve and his team. The children always enjoy these sessions and it's lovely to see the skills that they develop in such a short period of time.

We still have limited spots in some classes for our 2025/2026 program. For more information, please visit our website at www.westhillhurstpreschool.com, our Facebook page 'West Hillhurst Community Preschool', and our Instagram page @whcapreschool to see all the exciting and fun things we get up to!
