## GENERAL MANAGER'S MESSAGE

Dear West Hillhurst Community,

February may be the shortest month of the year, but it's full of opportunities to connect. From winter programs and community events to ways to stay active and involved, there's lots happening in our neighbourhood. We're grateful for the continued support of our members, volunteers, and partners—thank you for being part of our community.

WHCA was proud to partner with the Northwest Warriors Hockey Association to host our Second Annual Girls Hockey Day this past January, a community event celebrating and inspiring girls and women in hockey.

The day brought together players, parents, coaches, and supporters to celebrate female hockey achievements and our shared love of the game. Our goal is to ensure every participant feels valued, supported, and celebrated in Canada's favourite sport.

A huge thank you to everyone who made the day such a success. Special thanks to our volunteers, instructors, sponsors, Hockey Alberta, and the Northwest Warriors—this unforgettable event would not have been possible without you. Let's keep growing the game!

It's also been wonderful to see our community enjoying the outdoor rink and all our winter programming. From skating and hockey to pickleball, squash, and community events, our facilities have been buzzing all season long.

Stay connected, get involved, and be the first to know what's happening in our community!

Cheers,

The unintentional use of a word that sounds somewhat like the one intended but is very wrong in the context.

## News from the Friends of Nose Hill

*by Anne Burke*

The Calgary area has been the subject of many geological studies in scientific papers, field guides, and monographs, including glacial mapping of Nose Hill. The top of Nose Hill contains gravel deposited by the ancient Bow River, also carrying sand and mud, flowing east out of the mountains and reaching the level of the present hilltop. There may have been as many as 20 major glacial advances and retreats in what is now the Calgary area.

During the last one to two million years of earth history, ice sheets shaped the landscape. The continuous plain to the north, and on the east and west flanks of Nose Hill, were shaped by glacial meltwater from nearby ice. As the modern Bow River developed, it created a broad valley and the southern flanks of the Hill. A large lake was produced by an ice dam on the River. On its North and East, Nose Hill is bounded by Beddington and Nose Creeks. To the west, Big Hill Springs Coulee is what remains of the earlier glacial spillway system.

Nose Hill provides spectacular views from which to interpret the geological history of the Bow River Valley and its tributaries, as well as the uplands across the valley to the south. The boundary between eastern and western ice sheets is the result of a landslide from Mt. Edith Cavell. As the valley glacier advanced it was deflected southward by eastern ice and glacial erratics (large boulders) mark its former path.

## West Hillhurst Transportation and Mobility Committee

The WHCA transportation and mobility committee works with the planning committee to advocate for vehicle, pedestrian, cycling, and transit safety and access in our neighbourhood.

Our goals:

1. To work with the City of Calgary on transportation plans and issues related to our community.
2. To work with community members by letting them know how they can resolve transportation issues.
3. To advocate for infrastructure spending in our community.

## Planning Committee

## West Hillhurst Skating Club

West Hillhurst Skating Club (WHSC) is a not-for-profit Skate Canada sanctioned club that hosts skating programs in the northwest Calgary communities of West Hillhurst, Brentwood, and Mount Pleasant. West Hillhurst Skating Club has proudly operated within the West Hillhurst Community Association for more than 35 years. As a pillar of the community, WHSC will continue to serve WHCA members and Calgarians for decades to come.

Over the past few years, WHSC has seen significant growth. In an effort to better serve members, the WHSC has moved to a new website and email address! Februum

The month we now call “February” has had many different names. Due to the wet conditions, “Solmonath” was used in Old English and means “mud month”. The current name derives from the Latin term Februum (purification or to cleanse), and the Roman festival of purification called Februa.
