# Hawaiian Rice Bowl

by Jennifer Puri

**Ingredients:**

- 2 medium size carrots
- 2 small beetroots
- 2 mini cucumbers
- 2 avocados
- 1 can pineapple tidbits
- 20 jumbo size shrimp (shelled and de-veined)
- 2 cups shredded lettuce
- 4 cups cooked white, brown, or black rice
- 6 tbsps. mayo
- 2 tbsps. siracha sauce
- 2 tbsps. rice vinegar
- 2 tbsps. olive oil
- 2 tbsps. soya sauce
- 4 tbsps. of coriander leaves or nori nori (dry seaweed)

**Directions:**

- Wash and peel carrots and beetroots and then cut, along with the cucumbers into small even sized pieces.
- Drain pineapple tidbits and set aside. Cut each avocado into half and then slice each half into four pieces.
- In a small bowl prepare dressing by combining the mayo, siracha, and rice vinegar.
- Heat two tbsps. of olive oil in a skillet or wok and then add the shrimp and stirfry for three to four minutes or until the shrimp turn pink and are cooked. Add two tbsps. of soya sauce and toss the shrimp in it and then remove from heat.
- Assemble four bowls by placing a cup of warm rice in each one and arranging the pineapple bits, carrots, cucumbers, beetroots, and lettuce around the edges of each bowl. Add the shrimp and avocado slices and top with siracha mayo dressing. Garnish with coriander leaves or nori nori if desired.

\*You can substitute the shrimp for tofu and edamame or corn if you would prefer a vegetarian option.

Bon Appétit!

Rice is a grain that grows to 4ft. in height, produces small edible seeds, and thrives in warm, wet climates.

It is the world’s largest food crop and evidence of rice farming, dating back ten thousand years, has been found in the Yangtze River valley of China.

There are two types of rice – Asian Rice and African Rice and the length and width of the rice (once it is cooked) determines if it is short, medium, or long.

White rice is more commonly consumed than brown, black, or red due to its ease of cooking and long shelf life. Rice should always be washed before cooking as it will rid the rice of any starch that may be attached to the grain. It also prevents the grains from sticking to each other during the cooking process.

China is the world’s largest producer and contributes to the daily rice intake of 3.5 billion people in Asia, Africa, and South America.

Steamed, boiled, fried, or ground, rice shows up as an ingredient in Spain (paella), Italy (risotto), Japan (sushi), India (pillau), Malaysia (nasi lemak), Korea (bibimbap), Africa (jolloff), Brazil (galinhada), or in its simplest form poke or Hawaiian Rice Bowl.

# 101 Ways to Reduce Stress

by Nancy Bergeron R. Psych | [info@nancybergeron.ca](mailto:info@nancybergeron.ca)

- Get up 15 minutes earlier
- Prepare for the morning the night before
- Avoid tight fitting clothes
- Avoid relying on chemical aids
- Set appointments ahead
- Don't rely on your memory, write it down
- Practice preventative maintenance
- Make duplicate keys
- Say 'no' more often
- Set priorities in your life
- Avoid negative people
- Use time wisely
- Simplify meal times
- Always make copies of important papers
- Anticipate your needs
- Repair anything that doesn't work properly
- Ask for help with the jobs you dislike
- Break large tasks into bite size portions
- Look at problems as challenges
- Look at challenges differently
- Unclutter your life
- Smile
- Be prepared for rain
- Tickle a baby
- Pet a friendly cat or dog
- Remember you don't have to know all the answers
- Look for the silver lining
- Say something nice to someone
- Teach a kid to fly a kite
- Walk in the rain
- Schedule play time into every day
- Take a bubble bath
- Be aware of the decisions you make
- Believe in yourself
- Stop saying negative things to yourself
- Visualize yourself winning
- Develop your sense of humour
- Stop thinking tomorrow will be a better day
- Have goals for yourself
- Dance a jig
- Say 'hello' to a stranger
- Ask a friend for a hug
- Look up at the stars
- Practice breathing slowly
- Learn to whistle a tune
- Read a poem
- Listen to a symphony
- Watch a ballet
- Read a story curled up in bed
- Do a brand new thing
- Stop a bad habit
- Buy yourself a flower
- Take stock of your achievements
- Find support from others
- Ask someone to be your sounding board
- Do it today
- Work at being optimistic
- Put safety first
- Do everything in moderation
- Pay attention to your appearance
- Strive for excellence, not perfection
- Stretch your limits a little each day
- Look at a work of art
- Hum a tune
- Maintain your weight
- Plant a tree
- Feed the birds
- Practice grace under pressure
- Stand up and stretch
- Always have a plan B
- Learn to draw
- Memorize a joke
- Be responsible for your feelings
- Learn to meet your own needs
- Become a better listener
- Know your limitations and let others know them too
- Tell someone to have a good day
- Throw a paper airplane
- Exercise everyday
- Learn the words to a new song
- Get to work early
- Clean out one closet
- Play patty cake with a toddler
- Go on a picnic
- Take a different route to work
- Leave work early
- Put an air freshener in your car
- Watch a movie and eat popcorn
- Write a note to a faraway friend
- Go to a sports event and cheer loudly
- Cook a meal and eat by candlelight
- Recognize unconditional love
- Remember that stress is an attitude
- Keep a journal
- Have a support network of people, places, and things
- Quit trying to fix other people
- Get enough sleep
- Talk less and listen more
- Freely praise other people
- Relax, take each day as it comes

## SAFE & SOUND

### Accidental Poisoning

by Alberta Health Services

Emergency Medical Services (EMS) would like to remind parents and caregivers of precautions to prevent accidental childhood poisonings around the home. Ingesting prescription or over the counter (OTC) medications is a significant cause of accidental childhood poisonings. Other causes of poisoning include ingesting or coming into contact with household items such as dishwasher tablets, mouthwash, or chemicals such as paints, solvents and cleaning products.

#### Medication Storage

- Place all medications in locked containers and store in an area inaccessible to children
- For easy identification, store all medications in their original packaging; do not mix multiple medications in a single bottle
- Install child locks on all cabinets, or drawers where medications are stored

#### Safety Tips

- Child-resistant medication bottles are not child proof. They can still be opened by a child
- Take extra precaution with medicines designed to appeal to children such as chewable vitamins or flavored cough and cold syrups
- Promptly dispose of any medications or toxic household products no longer in use

#### Prevention

- Store household products, cleaning supplies, and cosmetics in locked cabinets or drawers
- Install child latches on cabinets children might also access by climbing on counters or chairs
- Label all plants in and around your home and garden
- Antifreeze, windshield washer fluid, and pesticides are extremely poisonous. Even small amounts of these can cause serious illness if ingested

Poisoning information can be obtained by calling the Poison and Drug Information Service (PADIS) at: 1-800-332-1414.

In case of a poisoning emergency, call 9-1-1. Provide the name of the product ingested and, if it is safe to do so, a sample of the substance for EMS to inspect on their arrival.

# Have Your Own Reasons for Healthier Eating

*from Alberta Health Services*

Your reasons for healthy eating are really important. Don't do it just because your spouse, friend, or someone else wants you to eat healthier. What makes you want to change how you eat? Do you:

- Want to feel better and have more energy?
- Want to improve your health?
- Want to prevent or treat health problems, such as high blood pressure, high cholesterol, or diabetes?
- Have another reason for wanting to do it?

Whatever your reason, you may already know what areas you want to work on. Maybe you want to cut back on high-fat snacks or eat more high-fibre foods.

If you aren't sure where to start, keeping a food diary can help. For a week or two, write down everything you eat, then compare what you are eating to Canada's Food Guide. It will help you see which foods you need to eat more of and which foods you eat too often.

Set goals you can reach. Ask yourself if you feel ready to begin taking steps toward big goals. If you're not ready yet, try to pick a date when you will start making small changes. Any healthy change—no matter how small—is a good start.

### **When You Are Clear About Your Reasons for Wanting to Make a Change, It's Time to Set Your Goals**

- **Long-term goals:** These are goals that you want to reach in six to 12 months. A long-term goal might be to eat plenty of vegetables and fruits every day.
- **Short-term goals:** You may not be ready to eat more vegetables and fruits every day. What are the short-term goals that will help you get there? Your first small goal might be to eat fruit at breakfast each day. As soon as you've reached that goal, you can set a new one by adding vegetables or fruits to your lunch or dinner. Or you could try eating a piece of fruit as a snack every day.
- **Update your goals:** It will help you stay motivated if you track your progress and update your goals as you move forward.

### **Tips for Setting Goals:**

- **Focus on small goals.** This will help you reach larger goals over time. With smaller goals, you'll have success more often, which will help you stay with it.
- **Write down your goals.** This will help you remember, and you'll have a clearer idea of what you want to achieve. Make a personal action plan where you can record your goals. Hang up your plan where you will see it often. It will remind you of what you're trying to do.
- **Make your goals specific.** Specific goals help you measure your progress and adjust your plan. For example, setting a goal to eat vegetables two times each day is better than a general goal to "eat more vegetables."
- **Focus on one goal at a time.** By doing this, you're less likely to feel overwhelmed and then give up.
- **As soon as you reach a goal, set a new one.**

Fresh Jock

**No matter how much you sweat, we can get the stink out!**

We offer cleaning services for sports equipment and personal protective equipment, including helmets, shoulder and elbow pads, knee and shin pads, footwear, skates, or gloves – almost any equipment used by athletes or workers can be cleaned, disinfected, & refreshed.

### OUR OZONE PROCESS

Using ozone, our system breaks down and penetrates stains, mucus, blood, sweat, fungus, bacteria, and mould. Ozone destroys 99.9% of bacteria and viruses it comes in contact with – this includes odour causing bacteria and illness causing viruses, like staph infections.
