FRIENDS of Fish Creek

The Friends of Fish Creek Have Saved Over 45,000 Native Plants This Year!

Ahh, summer. It was a time for enjoying beautiful weather, getting outside, and—of course—rescuing plants. Saving mature plants from sites slated for development and transplanting them into the grasslands where they can not only survive, but thrive, is a no-brainer for us here at the Friends.

And thanks to our developer partners Genesis Land Development Corp, Qualico Communities, and Calbridge Developments, we've had an extremely successful (if sometimes muddy) plant rescue season.

So far in 2025, across four sites, we estimate that we've saved over 45,000 plants—and these have all found a new home in the grasslands at Bow Valley Ranch! This not only gives our grassland and creekside habitat restoration projects a big boost, but these plants will produce harvestable seeds that we can then use to continue propagating and planting new plants, keeping the circular seed cycle going!

Here's a look at just a few of the incredible species we've been lucky enough to rescue this year. We hope you enjoy the beauty of these amazing native plants and grasses. If you want to get involved in plant salvage, you can volunteer to come out with us on weekends to help rescue plants for grassland restoration (or grab some for your own garden). Learn more about volunteering at friendsoffishcreek.org/volunteer or email us at info@friendsoffishcreek.org.

Porcupine Grass (*Hesperostipa curtieta*)

Blue grama grass (*Bouteloua gracilis*)

Nodding onion (*Allium cernuum*)

Dotted Blazing Star (*Liatris punctata*)

Yellow Owl's Clover (*Orthocarpus luteus*)

Parry's Oatgrass (*Danthonia parryi*)

Rhombic-leaved Sunflower (*Helianthus pauciflorus subrhomboides*)

YOUR CITY OF CALGARY

Green Line LRT Construction is Underway!

by the City of Calgary

Did you know the Green Line LRT SE Project officially broke ground on June 26, 2025? This monumental milestone marked the start of main construction for Calgary's largest and most ambitious infrastructure project to date and since then, progress has been moving full steam ahead.

With \$6.248B in committed funding from The City of Calgary, the Province of Alberta, and the Government of Canada, this project reflects a powerful collaboration dedicated to building a better future for our city. Over the past few months, the Green Line team has been hard at work initiating several key construction activities. If you've travelled through 78 Avenue SE, 114 Avenue SE, or Barlow Trail, you may have noticed active construction zones as part of the early stages of this transformational project.

One major area of focus is the Maintenance and Storage Facility (MSF), located near the future Shepard Station, where site preparation and servicing is well underway. This facility will play a crucial role in keeping Green Line light rail trains running smoothly and efficiently once service begins.

Construction on the Green Line LRT has started, and the benefits will last a lifetime.

To stay informed about upcoming work, timelines, and impacts in your community, visit calgary.ca/greenline and sign up for our newsletter.
