Cold Weather Safety

by Alberta Health Services

Emergency Medical Services (EMS) paramedics respond to a number of cold weather-related emergencies every winter. However, by taking appropriate measures to dress properly, anticipate sudden weather changes and preparing to be out in the cold, may reduce your risk of sustaining a cold weather illness/injury. It's also advised you store an emergency kit in your vehicle at all times containing extra clothing, blankets and other road-side supplies.

Frostnip

- Frost-nipped skin is extremely cold, but not yet frozen skin;
- It commonly affects the ears, nose, cheeks, fingers and toes;
- The skin may look red and possibly feel numb to the touch;
- When treated promptly, frostnip usually heals without complication;
- Move to a warm environment and immediately, but gently, re-warm the affected area through skin to skin contact (i.e. hand covering tips of ears).

Frostbite

- Frostbite occurs when skin becomes so cold, the skin and underlying tissues freeze;
- Affected skin may look white and waxy and will feel hard to the touch;
- Move to a warm environment immediately and place the affected area in warm, *not hot*, water until fully re-warmed;
- Call 9-1-1 or seek further medical attention as required.

Hypothermia

- Hypothermia is abnormally low body temperature, less than 34°C (as compared to normal body temperature of about 37°C);
- Early hypothermia may manifest as profound shivering; moderate hypothermic patients may act inappropriately: stumbling, mumbling, and fumbling, as their body temperature continues to drop resulting in severe hypothermia (<30°C);
- Left untreated, severe hypothermia may progress to unconsciousness or death;

- Early recognition and prompt medical attention is key. Call 9-1-1. Don't forget to protect yourself from the factors that originally lead to the patient's situation;
- Initiate gentle re-warming as quickly as possible. Remove any wet or constrictive clothing; cover with blankets or sleeping bags. Protect from further heat loss: eliminate contact with cold surfaces, and shield from wind and moisture.

Easy Turkey Chili

by Jennifer Puri

Turkey is a large bird which is rich in protein and other nutrients such as iron, zinc, and selenium. It provides many of the same calories as chicken and most people are easily able to digest it.

Ground turkey is an inexpensive way to consume turkey and over the years has grown in popularity as a substitute for ground chicken. Rich in vitamins and minerals it can contribute to a healthy diet as it is low in fat. Dark meat is more flavourful but has more calories than white meat without the skin.

Turkey can be added to soups, salads, sandwiches, burgers, or Chili as shown in this Easy Turkey Chili recipe below.

Prep Time: 15 minutes

Cook Time: 1 hour

Servings: 6

Ingredients:

- 1 lb lean ground turkey
- 2 tbsps. olive or vegetable oil
- 3 garlic cloves finely chopped
- 1 medium yellow onion chopped
- 1 red bell pepper finely chopped
- 1 900 ml carton (low sodium) chicken broth
- 1 28 oz can diced tomatoes
- 1 small can corn niblets drained and rinsed
- 1 540 ml can black beans drained and rinsed
- 1 540 ml can red kidney beans drained and rinsed
- ½ tsp Chili powder
- 2 tsps. ground cumin
- 1 tsp dried oregano
- 1 tsp salt
- ½ tsp ground black pepper

- Add the Chili powder, ground cumin, oregano, salt and black pepper and continue to cook for a couple of minutes.
- Add the black beans, kidney beans, corn, and diced tomatoes and blend in with the turkey.
- Add the chicken stock and bring to a boil and then reduce heat and allow the Chili to simmer for approximately 45 minutes, stirring occasionally.
- Garnish the Turkey Chili with sour cream, shredded cheddar cheese and chopped coriander leaves or taco chips and sliced avocado if preferred.

Bon Appétit!

Directions:

- In a large pot add olive or vegetable oil, chopped onion, garlic, and red pepper. Sauté the vegetables for 3 to 4 minutes until onions are softened and then add the ground turkey. Sauté the turkey for 4 to 5 minutes until cooked through.

#HealthyTechnologyUse

by Community Health Promotion Services

Technology is not going anywhere, in fact, it will continue to advance in the coming years. We use it everywhere, for school, work, and leisure. Strong connections and relationships are a protective factor for us that has been shown to help buffer risk and boost resilience. The availability of computers, smartphones, video consoles, and other electronic devices have given many the opportunity to always be connected. However, it is the time, the content, and reason of use that we want to focus on.

To ensure healthy technology use among the young people in your life, there are 4 Ms that you can refer to:

- **Manage:** The information online can be easily accessed but you can manage this by setting limits and clear expectations of use. It is also useful to continually learn about different platforms, especially those most popular in your life. For instance, using your phone during certain times of the day, what you can post, having limit checks, or learning about privacy settings on apps like TikTok to ensure healthy use.
- **Meaningful:** To see the positive impacts of technology, you want to make sure that the use is active, educational, and social. Is social media being used to post and connect with peers or are the people you love feeling FOMO “fear of missing out” on an event that may be posted by their peers.
- **Model:** If you are setting rules and expectations, you want to also follow what you are asking the young people in your lives to do. Review your own use, are you on your phone during dinner or before bed? Ask them to show you platforms they are using and ask questions about the posts they see, for example, how this makes you feel, or do you know what filters are?
- **Monitor:** The monitoring of use will help you to see if there are any warning signs of problematic use. When they are not using technology, are they bored or angry, have low self-esteem, are they exhibiting worsening symptoms of mental health issues such as anxiety, or does it interfere with school, social interactions, or sleep?

There are pros and cons when using technology. We encourage the use of the 4 Ms as a tool to ensure the positives of technology outweigh the negatives.
