# VOLUNTEER OPPORTUNITY

## It's Ice Time!

The temperatures have dropped.

The snow's starting to stick.

And you know what that means... it's rink season in Douglas Glen and Douglaston!

We're looking for awesome volunteers to help keep our community rinks in top shape this winter.

### That means:

- Flooding
- Shoveling
- Keeping the ice in great shape once the snow flies

No experience needed — just a warm heart, a bit of time, and a willingness to embrace the cold. (Think of it as your winter workout... and a great way to meet your neighbours!)

### Why volunteer?

- Community pride
- Bragging rights
- Bonus: You get to play with a giant hose or drive a tractor!

Interested? Email us at [info@dqca.ca](mailto:info@dqca.ca).

# FRIENDS of Fish Creek

## It's a Great Time to Start Thinking About Your Native Plant Gardens!

There's nothing like a chilly January to make you look forward to spring. Something we like to do when winter seems to drag on is to start planning our gardens, and at the Friends, that means starting seeds for a ton of different native plants! If you're interested in starting your own native plants from seed, there are a lot of species that are beginner-friendly, even if you don't have any experience growing plants from seeds at all. We're highlighting two species that are easy to get started with and how you can germinate and grow them this winter!

Did you know that the Friends have a native plant growing program called 'Grow with Us' that also acts as a native species seed bank? Learn more and sign up at [friendsoffishcreek.org/grow-with-us/](http://friendsoffishcreek.org/grow-with-us/).

### Plant 1: Smooth Blue Aster

These beautiful blue flowers are a cheery addition to any garden, plus, they support native pollinators and insects. Easy to germinate and grow, you could easily see the plants flower their first year when grown from seed, and they may even produce seed to harvest the first season too!

To grow this native species, sprinkle seeds on top of a pot of soil at least 6" deep then cover with a handful of soil, about 1/2 cm. Lightly press down on the top layer of soil and then mist the top of the soil with a sprayer to moisten the seeds and begin the germination process. Germination can take up to a few weeks, so check back often to make sure the soil (and most importantly, the seeds) is still damp.

### Plant 2: Prairie Coneflower

The prairie coneflower is a classic native species that often comes to mind when we think of the word "wildflower". It can be found growing all across the North American Great Plains North America, so why not bring the sunny yellow hues of this native plant to your garden bed?

To grow prairie coneflower from seed, you'll start by "cold stratifying" the seed. This means putting seeds outside in cold weather, or in the fridge in a moist substrate (like sand or paper towel) for a few weeks to a month. Then, plant seeds in sandy, well-draining soil in a pot at least 6" deep and water daily until germination. From there, you can move your seedlings outside or gradually transition them by bringing them outside for increasing durations during the day in April or May.

Wondering where to get seeds for native species? Sign up for our 'Grow with Us' program for smooth blue aster seeds, prairie coneflower seeds, and more. Plus, be a part of our circular seed economy and increasing species diversity in Fish Creek Provincial Park and beyond. You can find more information on our website.

# SUPPORT YOUR COMMUNITY

Purchase or renew your annual DouglasQuarry Membership today!

Visit [www.dqca.ca/membership](http://www.dqca.ca/membership) and download your membership card instantly.

1. Save, Save, Save \$\$\$ by showing your card at the vendors participating in the Benefit Partner Program.

# Asian-Style Chicken Noodle Soup

by Jennifer Puri

A comfort food ideal for cold weather, variations of chicken soup can be found in cuisines around the world.

Chicken soup is typically made with chicken broth and can include pasta, noodles, rice, dumplings, barley, leeks, celery, onions, carrots, matzo balls, and potatoes.

In some cultures, chicken soup is believed to have healing properties and is served to the sick and the elderly. Chicken soup is filled with protein and vitamins which can help boost immunity.

**Prep Time:** 20 minutes

**Cook Time:** 25 minutes

**Servings:** 3 to 4

#### Ingredients:

- 1 lb boneless, skinless chicken breasts, cubed
- 2 green onions, finely sliced
- 3 heads of bok choy, quartered
- ½ red bell pepper, thinly sliced
- 2 carrots, thinly sliced
- 1 tsp. crushed garlic
- 2 tsp. crushed ginger
- 2 tsp. sodium reduced soya sauce
- 1 tbsp. olive oil
- 2 tbsp. rice vinegar

- 1 tsp. red chili flakes
- 6 cups sodium reduced chicken broth
- 1 cup water
- 4 oz. vermicelli noodles broken into thirds

#### Directions

1. Heat the olive oil in a large pot, add the green onion and sauté for a couple of minutes.
2. Next add ginger, garlic, and chicken cubes and stir until chicken is no longer pink, about 2 to 3 minutes.
3. Add carrots, bok choy, and red bell pepper, and sauté for a couple of minutes.
4. Lastly add soya sauce, fish sauce, red chili flakes, stock, and a cup of water, and bring to a boil. Reduce heat and simmer for about 12 minutes or until chicken is tender. Add the broken noodles to the pan and simmer until the noodles soften, approximately two minutes.
5. Serve soup with green onion cake if desired.

Bon Appétit!

# Tobogganing/Sledding Safety

by Alberta Health Services

Emergency Health Services (EHS) – Alberta would like to remind parents and children about toboggan/sledding safety tips. Injuries may result from collisions with stationary objects on the hill, such as trees, poles, rocks, or even collisions with other people. Unprotected falls can also result in more serious injury if you lose control at high speeds. However, everyone can be safe on the hill by following these reminders.

### Equipment

- Always ensure your toboggan, or sledding device, is in good repair. Inspect it for any damaged or missing parts before each use.
- Be certain the operator is fully capable of staying in control of the sled at all times.
- Wear a ski helmet designed for use in cold weather and high speeds.

### Hazards

- Avoid hills that are too steep or icy.
- Choose hills free of all obstacles such as trees, rocks, utility poles, benches, or fences.
- Beware of loose scarves, or clothing containing drawstrings, which could present a strangulation hazard if they become caught or snagged.

- Look out for others. Move quickly to the side after finishing a run and stay to the side of the sliding path when walking up the hill.
- Children should be supervised by an adult; try not to toboggan alone.
- Sledding at night is not advised.

### Plan Ahead

- Anticipate weather changes and plan accordingly.
- Wear warm, insulating layers closer to the body, and wind/waterproof layers on the outside.
- Consider bringing extra sets of gloves and toques to exchange wet garments for dry ones.
- Take breaks out of the cold to warm up.
- Even when properly protected from the elements, the fingertips, toes, ears, the tip of the nose, and other high points on the face such as the forehead and cheek bones can be affected by frostbite; therefore, attempt to cover up any exposed skin.
- If frostbite has occurred, treat it by first getting out of the cold environment, or at least sheltered from any wind chill.
- Gently warm the affected skin by placing a warm hand over it, or by placing the affected part in warm - not hot - water until rewarmed.

**Egyptian Gem**

January's birthstone is the garnet, but did you know that this gem was used by ancient Egyptians! As far back as 3000 BC, Egyptians used garnets for their jewellery, amulets, and burial artifacts. The Egyptians considered garnets a symbol of royalty and power. Perfect for any Pharaoh!
