New Brighton Tool Shed – The Fall Cleaning

For the residents who are not familiar with the Tool Shed project in our community – the Tool Shed is an inventory of tools that you can borrow, free of charge, from the community centre. If there is a particular tool that you need once per year, that you don't want to buy and store, then the Tool Shed is the solution for you. A few premium tools require you to have the New Brighton Community Association membership, this way we can put more money towards new tools and replacement/repair of the broken ones.

Worried about how you will clean all the leaves and prepare your yard for winter? The Tool Shed is here to help. We hope this fall you will take full advantage of the tools available in the community Tool Shed. Check our "Tool Shed" page on ournewbrighton.ca and click on the inventory link to see the wide array of tools you can use free of charge. There are tools for all seasons and for a wide variety of projects, just give it a look.

Don't Be Shy, Give Us a Try

After this awesome summer, the NBCA board is putting out a call for volunteers. We see a lot of people on the neighbours FB page who want to do more for the community, and we would love to have some of those people join our board. We meet once a month both virtually and in person and you will be part of a team of community members who want to help keep New Brighton engaged and in close connection with our elected offices.

You can find more details about our team of volunteers on www.ournewbrighton.ca. Thanks for reading, we look forward to meeting you.

You Can Make a Difference on Calgary's Busy Streets

As school starts again, we want to raise awareness about how we can all make the traffic a bit better. Our city is growing at a rapid pace and if we expect miracles from others, the traffic will never be bearable. Please give a thought about the following good habits and let's make our roads safer for all of us.

Use Your Signals - How do you "tell" the car next to you that you want to change lanes, direction, or you want to stop? How do you "talk" with people in traffic? Simple, by using your signals. Using light signals should be imbedded in the fabric of every driver. How many times have people cut you off and stepped on your nerves? But when you see a signal, you are aware and informed of the change/move that the driver wants to make. How many times has someone slammed the brakes for no reason and then turned, endangering everyone around? If every driver uses their signals, it will make a big difference for our traffic.

Merge Lines - When you are on the highway and you race a car that is trying to merge, where do you think

the merging car can go when the merging line ends? Have you ever wondered why most of the accidents you see on the highway are at the merging lines? Please adapt your speed and be courteous and mindful at the merging lines, make sure your speed is different, and that the merging car can safely get into main traffic.

Turn Your Lights On - Our cars have a lot of automatic futures, but please, get into the good habit of turning on the switch for your lights every time you are driving. When all your lights are on you are visible and safer, as we all know the weather in Calgary can change in a split second. There are countries that have made it mandatory to have the lights on when driving, justifying that even if there's strong daylight outside, when you have the lights on you are visible and if other cars are parked around, people know your car is moving (we are talking about crowded residential streets here and in some places, we are not far from that). We've all seen cars with no lights driving at dawn, at dusk, and even more dangerous, in the middle of the night - don't be that driver.

"Talk" to everyone in traffic, be visible and respectful, and don't use merge lines as a racetrack, there's enough space for everyone on the streets. Let's all get home safe.
