### Cannabis and Youth

by Recovery Alberta – Community Health Promotion Services

Cannabis or other common names including, marijuana, weed, or pot, is a drug that comes from a plant that contains over 100 compounds. The two common compounds are THC and CBD which have completely different effects on the body, but both affect how you think, feel, and act. Cannabis can be smoked, vaped, consumed by eating or drinking, and absorbed through the skin.

Having conversations with a young person may be uncomfortable or difficult to know where or how to begin. Below are some key areas to focus on:

- Discussions: When is the right time to start having these conversations? Well, it is known that discussions about substances should begin as early as 12 years or earlier when appropriate. Educating yourself on how the substance is used and why it may be popular is the first step.
- Try To Understand Why: There are many reasons why a young person may decide to use substances, which can include coping, curiosity, or peer pressure. Ask questions and try to understand why they want to use and what they know about the substance.
- Set Clear Expectations: It is known that youth succeed with consistency. Be clear with your expectations of "no use of substances" while keeping in mind that you still want to be the support they come to. Role modeling and applying the same expectations for yourself will support with maintaining consistency.

### CKE Community Garden

While not entirely on topic for a community vegetable garden post, bringing flowers into the house can be almost as rewarding as putting homegrown food on the table. Many of the common perennials found in Calgary gardens make great cut flowers - peonies, delphiniums, yarrow, globe thistle, iris, bleeding heart, and asiatic lilies. Even lady's mantle with its spray of tiny yellow flowers adds great texture. Annuals can also be planted in order to cut. Plants like dahlias, sunflowers, sweet peas, snapdragons, zinnias, and gladioli are great options. Consider sneaking a few of these into your veggie garden as a way to add to the visual appeal and allow for bringing the outdoors onto your table with vase arrangements.

When cutting flowers, use a sharp knife or clippers, and put the cut stems directly into a bucket of water. Look for blooms that have just started to open and avoid any that have even a hint of brown on their petals. Adding foliage or greens adds great structure to an arrangement and can come from plants like peonies, ferns, or shrubs.

Make sure no leaves or flowers are below the water level in your vase and top up the water daily. Every two to four days it's worth changing the water and re-cutting the stems.

Happy gardening!

## BBQ Beef Patties on Buns

by Jennifer Puri

Alfalfa can be termed a super food due to its remarkable antioxidant properties. Antioxidants are highly effective against inflammation and may help protect cells from damage.

Alfalfa sprouts are made from germinated alfalfa seeds. These small stringy sprouts are filled with nutrients and are a good source of protein, fibre, vitamins, and minerals.

Alfalfa, radish, broccoli, kohlrabi, or red and green cabbage sprouts are all healthy and can be added to a sandwich, salad, soup, smoothie, or an omelette.

Alfalfa sprouts not only add a crunchy texture to any dish but can also make a dish look “gourmet” as shown in the BBQ Beef Patties on Buns recipe below.

**Prep Time:** 20 minutes

**Cook Time:** 10 minutes

**Servings:** 4

### Ingredients:

- 1 lb lean ground beef
- ½ cup fine dry breadcrumbs
- ½ tsp. coarsely ground black pepper
- 1 egg
- ⅓ cup barbeque sauce
- 2 tsps. finely chopped parsley
- 4 slices mozzarella cheese
- 4 hamburger buns

### Toppings:

- Red onion
- Lettuce leaves
- Mayonnaise
- Mustard
- Alfalfa or radish sprouts

### Directions:

1. In a medium size bowl mix together ground beef, egg, breadcrumbs, barbeque sauce, chopped parsley and black pepper until mixture is smooth.

2. Divide the mixture into 4 equal size portions and form balls. Flatten the balls into ¾ inch patties on a cutting board. Use your thumb to create a depression in the centre of each patty which helps to keep them in shape while cooking.
3. Oil the grilling grates and then grill the patties, covered, on medium high heat or until brown on the first side about 5 to 6 minutes.
4. Flip the patties and continue cooking for a few more minutes until desired doneness is reached. Use a meat thermometer to check the internal temperature of the patties aiming for at least 160 degrees Fahrenheit.
5. Top each patty with a slice of mozzarella cheese and allow cheese to melt.
6. Slice buns in half and toast on the grill if desired. Spread a little mayo and mustard followed by lettuce leaves, onion slices, and patties on one half of the buns then top with alfalfa sprouts and remaining half buns. Serve with French or sweet potato fries if desired.

Bon Appétit!

# Heat Related Illness

by Alberta Health Services

EMS would like to remind everyone to stay safe in the heat and sun this season. While children and the elderly may be more susceptible to the effects of heat and sun, basic prevention measures should be taken by all to avoid a heat related illness during periods of hot and humid weather.

### Heat Exhaustion

- Heat exhaustion can occur due to excessive fluid loss during periods of prolonged sweating in a hot and/or humid environment (indoors or outdoors).
- Patients may suffer headaches, weakness, fatigue, nausea/vomiting, thirst, chills, and profuse sweating.
- The patient is usually cold and damp to the touch and the skin may appear pale or dusky gray.

### Heat Stroke

- Heat stroke is a medical emergency which, without prompt treatment, could be fatal.
- It occurs when the body can't cool itself naturally (e.g., perspiration). The body's temperature will continue to rise to dangerous levels.
- Due to severe dehydration and the inability to sweat, the patient may appear flushed, and skin may be hot and dry to the touch.

### First Aid

- First aid for all heat related illness begins with removing or sheltering the patient from the hot environment.
- Remove excess, or tight-fitting clothing, and allow them to rest in a cool environment.

- If the patient is conscious and alert, provide suitable fluids such as water, juice, or a sports drink.
- If you are concerned, seek medical attention.

### Prevention

- Stay well-hydrated by drinking plenty of water at all times.
- Be aware that excessive alcohol consumption will promote dehydration.
- Always wear a broad brimmed hat to keep the sun off your face and neck.
- Apply a broad spectrum, waterproof sunscreen with a minimum SPF of 30+, especially for children. The sun's UV rays peak between 11:00 am and 3:00 pm, even on cloudy days.

## YOUR CITY OF CALGARY

# Get the Lowdown on Slow Downs: How We Keep Calgarians Moving

by The City of Calgary

We know construction season can be frustrating; The City of Calgary's Mobility teams work in close collaboration with project managers and city event organizers to avoid multiple delays and plan for traffic flow congestion. The City's Traffic Management Centre monitors roadways 24/7 by using traffic cameras, live traffic data, and digital road signs.

It's not a pain when you have a plan, and we have Waze to help. The City's partnership with Waze means you can get real-time traffic flow and construction updates right in the app. This free download is our preferred navigation tool because it syncs with The City's advanced traffic system. With the right tools you can get to where you need to go.

Learn more at [calgary.ca/PlanYourTrip](http://calgary.ca/PlanYourTrip).

Are you looking for a place to host your programs? CKE would love to have you! With our four different rooms (Studio, Lifestyle room, Bluesky Gym, and Board room), we have something for every event. Please reach out to our facility coordinator at [CKEhallrental@gmail.com](mailto:CKEhallrental@gmail.com) for more information.

## Celebrating Calgary 150 - Oil Town

by Anthony Imbrogno (*The Calgary Heritage Initiative Society/Heritage Inspires YYC*)

Calgary was booming by 1920.

The CPR built the Palliser Hotel, called the “Castle by the Tracks”, which employed immigrants like my Nona and father. The Kings Arm Tavern inside was frequented by gay men. Meanwhile, Fort Calgary was razed.

A splendid City Hall reflected Calgary’s prominence. And another public building is Heritage Hall, Western Canada’s first post-secondary institution. Hudson’s Bay’s new store opened with a granite columned arcade, unique in North America.

Parks Superintendent William Reader sought to beautify Calgary with Reader Rock Garden, his experimental site. Shaganappi (“rawhide lacing” in Cree), an Indigenous gathering place, became the first municipal golf course (ca.1914).

St. George’s Island became the zoo’s home, with concrete dinosaurs added in 1935. Dinny is the only survivor. Annie Gale, the British Empire’s first woman city councillor, supported self-sufficiency through the Vacant Lot Gardens Club.

Energy resources started dominating the economy. Coal was mined in the Crowsnest Pass - my great-grandfather Salvatore was a miner who died in an accident. Nearby is Turtle Mountain, known to Indigenous peoples as “the mountain that moves”. On April 29, 1903, the Frank Slide destroyed the mine and several homes. Between 70 and 90 people perished.

At Turner Valley, William Herron’s well struck gas. He’s considered the father of Alberta’s petroleum industry. The Herald wrote, “a lively but fairly sane cow town became a madhouse”. Oil was discovered in 1936, sealing Calgary’s fate as Oil Town.

New main streets developed. Off 10 Street NW is the Art Deco-style Plaza Theatre (ca.1934). Apartment buildings also appeared, including Spanish Colonial-style President Apartments and Tudor Revival-style Barnhart Apartments.

Another kind of community formation occurred in 1928 when Métis Nation of Alberta was founded to establish eight settlements.

Then the Great Depression began in 1929. Public works projects generated employment, including the Glenmore Reservoir and Banff-Jasper Highway. Norman Luxton spearheaded Banff’s Winter Carnival and Buffalo Nations Museum. Mount Norquay and Sunshine became ski resorts.

During hard times, sport offered respite. The Calgary Tigers played rugby football and threw Canada’s first forward pass in 1929. The Stampeders won their first game in 1945, perfect for a city approaching 100,000.
