11. Canadians drink just under six million litres of this beverage in December.

8 Tips for Beating Holiday Stress

Nancy Bergeron, R.Psych. | info@nancybergeron.ca

Whether your holidays are celebrated in a secular way or are steeped in traditional religious meaning, they are meant to be filled with love, laughter, fun, and family closeness. However, for many of us, this can be a time of extreme stress. What we envision in our minds, see on social media, and depicted in holiday movies, can be truly unattainable. Trying to get everything just perfect to match our expectations evokes visions of the movie classic Christmas vacation. So much is well intended, however, the execution falls short at each turn. Making lists for gifts and groceries, cooking/baking, house guests, planning for celebrations, and family obligations can add up to stress for most people at holiday-time. Help prevent holiday stress with the following tips.

1. Plan ahead. You know how it goes with procrastination – Christmas Eve spent scrambling through shopping malls and madly wrapping gifts. Plan your shopping list a month ahead and schedule time to shop early. Prepare any meals or holiday treats a few weeks before the holidays.

2. Make time to relax. Take time for activities you enjoy and find relaxing. For example, enjoy reading in front of a fire, or go skating with a friend or the family. Don't compromise a relaxing winter evening for another night in the shopping mall. Stay home with the family having a hot chocolate creation day, holiday movies, and popcorn night or a family and friend potluck.

3. Put expectations in check. If you're hoping for perfection (from yourself or your holiday experience), you might be setting yourself up for disappointment. Be realistic in your holiday preparations and the holiday experience itself.

4. Look for help. Do not try to take it all on yourself. Connect with your spouse, family, and friends and share the responsibilities for holiday shopping, preparing, and

cooking. Perhaps a cookie exchange or a potluck style traditional dinner where you are only responsible for the turkey and the guests all bring another part of the feast.

5. Set limits. Commit yourself to a budget to alleviate post-holiday financial stress. Stick to a certain number of gifts purchased and/or money to be spent. Say “no” to extra holiday work and be honest with yourself about the amount of energy and time you can devote to holiday events and guests. If your social calendar is over-booked, say “no” to an extra pre-Christmas party.

6. Eat and drink but be healthy. Holidays are usually full of all your favorite things – including sweets, treats, and cocktails. Practice moderation while enjoying parties and holiday meals. This is the time of year, we need to get sufficient rest, healthy foods, and hydration to ward off colds and flus.

7. Let things go. If family and relative interactions this time of year tend to turn into blow-ups and unmet expectations, the holidays are not the time to resolve old issues. We've had 11 months to confront these challenges with others in a more controlled, respectful, and healthy way. Write your grievances down to address in the early new year to allow time to work through or resolve some of these ongoing issues.

8. Don't forget the fun! Remember the reason for all your holiday planning, a season for celebration and time spent enjoying your family and friends. Take the time to remember what this holiday season means to you and enjoy it! This is where mindfulness comes in, be present and take in all the wonder of the season with all your senses.

Wishing you and yours, good mental health and all the joys of the season.

Cold Weather Safety

by Alberta Health Services

Emergency Medical Services (AHS EMS) responds to many cold weather emergencies each winter. You can reduce your risk of sustaining a cold weather emergency by taking a few precautions. Dress by wearing warm, insulating layers close to the body covered with wind and waterproof layers on the exterior- and don't forget a toque! Carry an emergency roadside kit in your vehicle containing extra clothing, blankets, and emergency supplies and ensure your cell phone is fully charged.

Hypothermia

- Hypothermia is abnormally low body temperature, less than 34°C (as compared to normal body temperature of about 37°C).
- Early hypothermia may manifest as profound shivering; moderate hypothermic patients may act inappropriately: stumbling, mumbling, and fumbling, as their body temperature continues to drop resulting in severe hypothermia (<30°C).
- Left untreated, severe hypothermia may progress to unconsciousness or death.
- Early recognition and prompt medical attention is key. Don't forget to protect yourself from the factors that originally lead to the patient's situation.
- Initiate gentle re-warming as quickly as possible. Remove any wet or constrictive clothing; cover with blankets or sleeping bags. Protect from further heat loss: eliminate contact with cold surfaces, and shield from wind and moisture.

Frostnip

- Frost-nipped skin is extremely cold, but not yet frozen.
- It commonly affects the ears, nose, cheeks, fingers, and toes.
- The skin may look red and possibly feel numb to the touch.
- When treated promptly, frostnip usually heals without complication.
- Move to a warm environment and immediately, but gently, re-warm the affected area through skin-to-skin contact (i.e., hand covering tips of ears).

Frostbite

- Frostbite occurs when skin becomes so cold, the skin and underlying tissues freeze.
- Affected skin may look white and waxy and will feel hard to the touch.
- Move to a warm environment immediately and place the affected area in warm, not hot, water, until fully re-warmed.
- Seek further medical attention as required.

Guess That Character!

1. Named after a month, this dark character is part of a famous fictional family and got her name from a Mother Goose nursery rhyme.
2. This character is voiced by Vin Diesel and can only rely on one line to emote throughout his screen time.
3. This quirky creature is the counterpart to Wallace in their wild escapades.
4. A cowboy being best friends with a space ranger seems unlikely, but that is exactly what this beloved children's character is.
5. This character is best known for her adventures and her bright red shoes.
6. The star of a film released in 1994, this character is best known for his love of life and chocolates.

Winter Car Seat Safety

by Alberta Health Services

Bulky winter clothing can impact the effectiveness of car seat harnesses and can significantly compromise your child's safety when traveling. The force of a car crash can cause puffy winter coats and snowsuits to suddenly flatten, creating a gap between your child and their car seat harness. When this happens, your child is no longer properly secured and is at risk of being partially or fully ejected from the car seat. This can cause serious head or spinal injuries.

It is crucial to dress your child in thinner layers and adjust straps snugly to ensure their protection. Bulky clothing, including winter coats and snowsuits, should not be worn underneath the harness of a car seat.

Tips to keep your kids safe and warm in their car seat during the winter:

- Place a blanket over the straps after they are buckled up.
- Put your child's coat on backwards after they are strapped into their car seat.
- Don't forget hats and mittens. These keep kids warm without interfering with the car seat harness.
- Pack an emergency bag with extra blankets, dry clothing, hats and gloves, and non-perishable food.

Always remember these rules for car seat safety:

- Follow the car seat manufacturer guidelines. The car seat must be correctly installed in the vehicle.
- The shoulder harness should be snug enough that you cannot pinch the strap fabric at the collarbone.
- Infants and young children are safest riding in a rear-facing car seat until they reach the maximum height or weight limit for rear-facing use allowed by the seat's manufacturer.
- Your child is safest riding rear-facing until two, three, or even four years old.
- When your baby outgrows their infant seat, move them into a larger rear-facing seat.
- When a child outgrows their larger rear-facing car seat (by height or weight), they should move into a forward-facing car seat with a harness.
- When a child outgrows their forward-facing car seat (by height or weight), they should move to a booster seat. Use a booster seat until the seat belt fits properly; this is typically when your child is 145 cm (4 ft. 9 in.) tall and between 8 and 12 years of age.

RESIDENT PERSPECTIVES

Rosemary and Oregano – A Good Combo for the Festive Season

by Kosha Vaidya, MBBS, CH

Rosemary and oregano herbs are helpful in winter months. Rosemary and oregano are becoming my favourite by the day. Rosemary helps in increasing alertness which I guess we need to get ready for Christmas. This herb is rich in antioxidants.

Herbalists use this herb for various conditions such as people having circulatory weakness, digestive disorders, and depression just to name a few. In one study rosmanic acid which is found in rosemary helped people to get better from the common cold 33% faster.

Let's look at oregano. To begin with it has a great taste and can be added in almost any meal for personal consumption such as meals prepared for social gatherings. Oregano has antiviral and antibacterial properties. Basically, it improves immunity which is also important during holiday seasons when we have many social gatherings. One to two spoons of oregano mixed with 250 ml of water which is then steeped for 15 minutes is a healthy mouth gargle to help fight throat infection and cold symptoms.

Both the rosemary and oregano herbs have many health benefits. They help me prepare delicious meals for the holiday season and especially help sharpen my memory so that I don't have to struggle remembering the to-do list for the festive season.
