***A SUPER BOWL
 SHOWSTOPPER!***

On January 24, 1984, Apple Computer Inc introduced the world to their Macintosh personal computer. Apple hyped it up just two days earlier with an epic Super Bowl ad directed by Ridley Scott. The ad, inspired by Orwell's *1984*, boldly declared Apple was here to smash conformity—and it worked!

Celebrating Calgary 150 - Calgary's Prehistory

by Anthony Imbrogno (*The Calgary Heritage Initiative Society/Heritage Inspires YYC*)

2025 is Calgary's 150th anniversary! We're writing 12 articles on the different eras of Calgary's history.

Let's start at the beginning, not quite the Big Bang but the Dinosaur Age, when Alberta lay underneath the Western Interior Seaway. Alongside the newly forming Rocky Mountains was a lush coastline of tropical forests and wetlands.

The land was inhabited by creatures like the duck-billed Edmontosaurus, which was hunted by Albertosaurus. The warm and shallow sea was full of marine life like plesiosaurs, sharks, and giant fish.

Today, Drumheller is one of the world's richest dinosaur study areas. You'll see many fossils at the Royal Tyrrell Museum, Canada's only museum dedicated to ancient life.

Besides their scientific value, fossils became the fuels that have driven our economy and technology. After millions of years, shells formed porous layers on the seafloor where organic sludge settled and became exposed to heat and pressure, forming oil and gas.

In Turner Valley in 1914, natural gas sprayed out of one wellbore. Then in 1947, the Leduc-Rimbey reef became famous for an oil strike that launched the province onto the world stage.

On the Kainai Reserve southwest of Lethbridge, some ancient life turned into large deposits of iridescent shells, called ammolite. It's also called iniskim ("buffalo stone"), since according to Indigenous legend the first stone saved people from starvation. Ammolite became Alberta's official gemstone in 2022.

Fast forward to the last Ice Age, when 3-kilometer-thick ice sheets covered 97% of Canada. Then the sheets melted, leaving markers all throughout Alberta. The Prince of Wales Hotel in Waterton sits atop a kame, an irregularly shaped hill formed from ice sheet movements.

Another sign of glaciation are erratics, massive rocks seemingly placed at random. The growing ice sheets carried rocks and then left them behind when the ice melted. The largest is Big Rock near Okotoks, meaning "rock" in the Blackfoot language.

Another Ice Age effect was exposing the Bering land bridge linking Eurasia and Alaska. About 14,000 years ago, several thousand hunter-gatherers crossed over, probably following woolly mammoth herds. They spread out across the Americas, which we'll explore next month.

Trauma-Informed Practice Framework in Child and Youth Care

by Rima Madi, ECE

Definition of Trauma

Trauma is often defined as an emotional response to a distressing event or series of events that overwhelm an individual's ability to cope by compromising their defense mechanism. In children, trauma can arise from various sources, including neglect, abuse, loss, and exposure to violence. According to the National Child Traumatic Stress Network, trauma can have lasting effects on a child's mental, emotional, and physical health (NCTSN, 2021).

Definition of Trauma-Informed Practice

Trauma-informed practice in CYC involves understanding the long-term negative effects of trauma on the brain and how it affects individuals' responses to stress. It emphasizes creating a safe environment that fosters trust, collaboration, and empowerment among children and youth. By acknowledging trauma's role in behaviour and emotional responses, practitioners can better support healing and resilience.

According to Shalka (2013), "in cases of traumatic stress, an imbalance can develop between the amygdala and frontal lobes in their responses to threat detection. In these situations, the frontal lobes' capacities to inhibit responses are decreased. As a result, individuals suffering the effects of traumatic stress may startle easily, become angry or upset at seemingly small frustrations, or be paralyzed and frozen by the touch of another."

In a practice of relationships, youth could not learn, grow, or form relationships if they either hyper or hypo aroused or shut down. (Shalka, 2015, p. 23).

Implementing Trauma-Informed Practice in Early Years Settings

In early years settings, implementing trauma-informed practice involves creating nurturing environments where children feel safe and valued. This can be achieved through:

- **Creating Safe Spaces:** Designing classrooms that promote comfort and safety, using calming colours, greenery, and providing cozy areas for children to retreat to when needed. Embedding art, sensory activities, breathing exercises, yoga, mindfulness practices, and ample unstructured outdoor play (Ministry of Children and Family Development, 2017).
- **Building Relationships:** Establishing strong, trusting relationships between educators and children, using positive reinforcement and consistent routines to foster attachment (Ministry of Children and Family Development, 2017).
- **Incorporating Trauma-Informed Strategies:** Implementing activities that promote emotional expression, such as storytelling and art, which can help children process their experiences (Ministry of Children and Family Development, 2017).

While trauma-informed practice offers significant benefits, it has limitations. The trauma-informed approach is considered incomplete. Ginwright (2018) argues that trauma-informed care risks focusing on treating trauma as pathology rather than fostering well-being. The emerging field of positive psychology offers insights into the limitations of focusing solely on symptom treatment and instead emphasizes enhancing the conditions that contribute to well-being (Ginwright, 2018, p. 1). The healing-centered approach provides a more comprehensive way of addressing trauma holistically by emphasizing a person's spiritual and cultural background. This approach helps ground survivors in their cultural, moral, and heritage values, empowering them to focus on well-being. It shifts the perspective from "what happened to you" to "what is right with you" (Ginwright, 2018, p. 2).

In conclusion, exploring trauma-informed practice within the context of child and youth care is essential for effectively supporting children and youth who have experienced trauma. Creating safe spaces where relationships are nurtured, voices are heard, choices are provided, and survivors are empowered to feel hope, compassion, and control in their decision-making leads to more positive outcomes. Furthermore, immersing survivors in activities and practices rooted in their cultural and heritage values can help ground them on a deeper, spiritual level. Reflecting on my readings, I've come to appreciate the complexity of being human,

with our interconnected social identities highlighting both our vulnerability and our shared humanity. We all navigate the dualities and fragility of our core, yet immense resilience resides within us. I hope that future research and practice will continue to refine and expand trauma-informed approaches, ensuring that all children and youth receive the care and support they need to thrive (Mendell, 2022).

Understanding Mental Health

by Alberta Health Services

Mental Health is complicated. There are many ways to talk about it and it can get confusing. To better understand, Mental Health Literacy developed a tool known as “the pyramid” that consists of four layers. The base of the pyramid is the largest, which is related to the number of individuals in this state. Therefore, as the pyramid gets smaller so does the amount of people who may experience this state. Let’s take a closer look at what the four levels of the pyramid are:

1. No Distress, Problem, or Disorder

This is the bottom level and the largest of the pyramid. This is when everything is okay, and you are not experiencing any mental distress, problems, or disorders.

2. Mental Distress

The next layer up is mental distress. Distress releases a signal from our brain indicating the need to adapt to our environment and that there is a problem to solve. Triggers of distress are unavoidable, but the process is necessary for life-skills promoting and building resilience. An example is having an argument with your boss; once you figure out a solution the mental distress goes away.

3. Mental Health Problem

The layer second from the top is mental health problems which is an indicator that we are having difficulties and may need external help such as counselling or community support. This can arise from a stressor of great amount, such as the death of a loved one.

4. Mental Disorder/Illness

Located at the top of the pyramid is mental illness. This occurs when there is disruption in usual brain functioning. This disruption is the result of our genes and our environment from the time of conception and throughout the lifespan. Examples of this can be the diagnosis of ADHD, clinical depression, and anxiety.

Now that we have a better understanding of these terms, here are everyday things you can do for your mental health, also known as the Big Five to Thrive!

- Exercise: This could be a walk in the community or a session at the gym.
- Sleep: The optimal amount needed varies for everyone. Put away your phone and snuggle up for a good night’s sleep.
- Supportive Relationships: Develop and maintain positive relationships with family, friends, and community. Surround yourself with those who lift you up.
- Nutrition: Incorporate healthy foods that are easy to make and taste great!
- Helping Others: Get involved in your community coalitions or volunteer with local charities.

It has been shown that improving even one of these areas can improve the other areas. Consider steps that are practical for you to better your mental health!

Tortellini and Spinach Soup

by Jennifer Puri

Tortellini is an Italian bite-sized pasta which is stuffed with ricotta or parmesan cheese, pork, sausage, dried mushrooms, herbs, and vegetables.

This ring-shaped pasta is traditionally served in a broth, but tomato, mushroom, and meat sauces are also popular. Italy is recognized for its food culture and the work of rolling out the dough evenly and then cutting it into small squares, followed by the stuffing and shaping of the tiny tortellini which is an art in itself.

Tortellini and spinach soup is the perfect weeknight supper that can be enjoyed by every member of the family. It is delicious on its own or with a tossed salad and garlic or crusty bread.

Prep Time: 10 minutes

Cook Time: 15 minutes

Servings: 4 to 5

Ingredients:

- 1 package spinach or cheese stuffed tortellini (350 gm)
- 1 tbsp. olive oil
- 3 garlic cloves, finely chopped
- 1 small yellow onion, finely chopped
- 6 tbsp. tomato paste
- 3 cups fresh spinach leaves, stems removed
- 2 carrots, chopped
- 10 cups of low sodium chicken broth
- ½ tsp. ground black pepper
- Salt to taste
- 1 tsp. Italian seasoning
- 1 cup half and half cream

Garnish:

- Grated parmesan cheese
- Parsley leaves
- Red chili flakes (optional)

Directions:

- Place the olive oil, onion, garlic, and carrots in a medium size pot or Dutch oven. Sauté the vegetables until the onions are translucent, approximately 4 to 5 minutes.
- Add the tomato paste, Italian seasoning, salt, and pepper, stirring frequently. Next add the broth and bring to a boil. Add tortellini and cook until the tortellini is al dente, about 5 minutes.
- Reduce heat to low and gently add the half and half cream and the spinach leaves and continue to simmer for a couple of minutes or until spinach leaves are wilted and then remove from heat.
- Ladle the soup into bowls and garnish with grated parmesan cheese, parsley leaves, and chili flakes (optional).

Note:

- Leftover soup can be stored in an airtight container and refrigerated for up to three days.
- Vegetarians can substitute the chicken broth with vegetable broth.

Bon Appétit!

Warm Up to Winter in Calgary Parks

by the City of Calgary

Winter makes it possible to enjoy Calgary parks in a different way than during any other season. Many cold-weather park activities are also free with minimal equipment needed. Only in winter can you skate on outdoor rinks, marvel at beautifully lit ice trails, play Crokicurl, and ride an ice bike in our parks.

We have several established outdoor rinks and two new ones this year - Prince's Island Park lagoon rink and the Lot 6 Pop-Up rink, making a total of ten outdoor, natural ice skating rinks, over 60 volunteer-run Adopt-a-Rinks, and indoor skating at 12 arenas with 19 rinks. Have you visited Prairie Winds Park in the winter before? There are two skating rinks and decorative winter displays to enjoy.

Plan an afternoon at your local community park snowshoeing or cross-country skiing. For easier skiing, visit a park or golf course that has groomed cross-country trails.

Take a walk through a park on a sunny winter day. You are sure to see birds and other wildlife. You can also pre-book an outdoor firepit at a park and have a winter picnic with friends.

For more ideas about how to stay active during cooler temperatures at city parks, visit calgary.ca/winteractivities.

Happy New Year, Calgary Midnapore!

It's hard to believe that 2025 is already here! I hope you had a relaxing holiday season with your loved ones and welcomed in the New Year with those closest to you!

As we enter 2025, I want to remind constituents of the federal services my office can help you with. Whether it be Service Canada supports (EI, CPP, OAS, CRA), Immigration, Refugees, and Citizenship Canada (IRCC), or Passport Canada, we are here to help! For more information, please visit my website at www.StephanieKusieMP.ca and navigate to the correct service tab to ensure my office can assist you in a timely manner.

During the holiday season, I partnered with the Calgary Food Bank and Project Warmth Society of Alberta to donate much needed food and winter clothing for those in need in our city. Thank you to all constituents who were able to stop by my office and donate – it is always wonderful to see our community come together and support those who need it most.

My Conservative colleagues and I are heading into the new Parliamentary Session ready to fight for Canadians and lower the cost of living. We will continue to hold the government to account and ensure the voices of everyday workers and seniors are heard in the House of Commons.

I encourage you to follow me on social media to stay up to date on my work in Ottawa on your behalf - @StephanieKusie on X and Instagram, @StephanieKusiePolitician on Facebook, @StephanieKusieMP on YouTube.

May 2025 be a year of good health and prosperity for you and your family.

Sincerely,

Stephanie Kusie

Polar Bears' Secret Colour

Here's a cool (and surprising) fact: polar bears actually have black skin! And get this - their fur isn't white, it's transparent! The black skin helps them soak up precious heat, while their transparent fur reflects light, making it look white and blending them perfectly into the snowy Arctic.

January Crossword

Across

1. Ice-hockey player and co-founder of a popular restaurant franchise, Miles Gilbert "Tim" _____, was born on January 12, 1930, in Cochrane, Ontario.
