BBQ Beef Patties on Buns

by Jennifer Puri

Alfalfa can be termed a super food due to its remarkable antioxidant properties. Antioxidants are highly effective against inflammation and may help protect cells from damage.

Alfalfa sprouts are made from germinated alfalfa seeds. These small stringy sprouts are filled with nutrients and are a good source of protein, fibre, vitamins, and minerals.

Alfalfa, radish, broccoli, kohlrabi, or red and green cabbage sprouts are all healthy and can be added to a sandwich, salad, soup, smoothie, or an omelette.

Alfalfa sprouts not only add a crunchy texture to any dish but can also make a dish look “gourmet” as shown in the BBQ Beef Patties on Buns recipe below.

Prep Time: 20 minutes

Cook Time: 10 minutes

Servings: 4

Ingredients:

- 1 lb lean ground beef
- ½ cup fine dry breadcrumbs
- ½ tsp. coarsely ground black pepper
- 1 egg
- ⅓ cup barbeque sauce
- 2 tsps. finely chopped parsley
- 4 slices mozzarella cheese
- 4 hamburger buns

Toppings:

- Red onion
- Lettuce leaves
- Mayonnaise
- Mustard
- Alfalfa or radish sprouts

Directions:

1. In a medium size bowl mix together ground beef, egg, breadcrumbs, barbeque sauce, chopped parsley and black pepper until mixture is smooth.

2. Divide the mixture into 4 equal size portions and form balls. Flatten the balls into ¾ inch patties on a cutting board. Use your thumb to create a depression in the centre of each patty which helps to keep them in shape while cooking.
3. Oil the grilling grates and then grill the patties, covered, on medium high heat or until brown on the first side about 5 to 6 minutes.
4. Flip the patties and continue cooking for a few more minutes until desired doneness is reached. Use a meat thermometer to check the internal temperature of the patties aiming for at least 160 degrees Fahrenheit.
5. Top each patty with a slice of mozzarella cheese and allow cheese to melt.
6. Slice buns in half and toast on the grill if desired. Spread a little mayo and mustard followed by lettuce leaves, onion slices, and patties on one half of the buns then top with alfalfa sprouts and remaining half buns. Serve with French or sweet potato fries if desired.

**Best Thing Since
Wrapped Bread!**

Ever wonder where the phrase “best thing since sliced bread” comes from? Well, it all started on July 7, 1928, when the Chillicothe Baking Company became the first to sell pre-sliced bread thanks to a machine invented by Otto Frederick Rohwedder. Back then, sliced bread was the best thing since wrapped bread!

Building Your Emergency Food Kit

by Alberta Health Services

Emergencies often happen without warning. They may be natural disasters like floods, wildfires, or severe storms that require evacuation. They could also be events such as extended power outages that require you to shelter in place for some time. In both cases, access to food and water may be limited so it's a good idea to have an emergency food kit ready. Your kit should contain a collection of non-perishables, ready-to-eat food items stored for use during emergencies when access to supplies may be disrupted.

This article will provide information on what emergency food kits are, why they are necessary, and what to include in your kit.

Why An Emergency Food Kit Matters

During a disaster, you may not be able to shop for food, cook, or access clean water. You may have to evacuate your home with very little notice or be asked to shelter in place. Having an emergency kit is essential. An emergency food kit contains non-perishable foods designed to sustain your family during unexpected situations like natural disasters. Food items that can be stored for a long time without refrigeration are

ideal for emergencies. In addition to peace of mind, having an emergency kit ensures you will have enough energy to handle the physical and emotional stress that emergencies often cause.

When assembling an emergency food kit, it's important to consider both nutrition and practicality. Focus on non-perishable items that are easy to prepare, require minimal cooking, and meet basic needs. Your grab and go emergency kit should contain enough food and water for each member of your family for a minimum of 72 hours. If sheltering at home, ensure that you are prepared for a minimum of 14 days.

Items to Include

Choose non-perishable foods using the principles from Canada's Food Guide and consider what you might have for meals and snacks. Examples include dry cereal with shelf-stable milk and dried fruit or canned fish, with whole grain crackers and canned vegetables.

Some of these items require minimal heating. If you do not have a camp stove and fuel, as well as pots for an emergency kit, do not choose foods that require some heating.

GAMES & PUZZLES

Guess the Canadian Legend!

1. This famous hockey player holds or shares 61 NHL records.
2. This inventor's mom and wife were both deaf.
3. This inspirational man ran for 143 days, beginning in St. John's, Newfoundland.
4. The first band this incredible musician was ever in was called "The Jades".
5. This popular scientist and media personality is best known for hosting *The Nature of Things*.
6. This *Matrix* star is an avid motorcyclist and even co-founded a motorcycle manufacturing company.

SCAN THE QR
CODE FOR THE
ANSWERS!

- **Water:** 4 litres per person, per day for drinking and basic hygiene.
- **Vegetables and Fruits:** Dehydrated potatoes, canned fruits and vegetables, canned vegetable soups, as well as dried fruits.
- **Grain Foods:** Crackers, cereal, granola bars, instant oatmeal, rice, and pasta. Consider whole grain crackers and cereal for added nutrition.
- **Protein Foods:** Protein options include canned beans or canned meat, nuts, seeds, nut butters, and jerky.
- **Milks and Plant-Based Beverages:** Choose options that are sold at room temperature and in special cartons or in cans. These do not need refrigeration until they are opened.
- **Special Diet Foods:** If you have individuals with dietary restrictions, ensure that your kit contains enough specialty foods to last for the full duration of the emergency.
- **Other Foods:** While it's important to focus on essentials, you may also want to include some foods such as canned pudding, chocolate or packaged snacks, tea or coffee.
- **Meal Preparation Materials:** Include plates, cutlery, a multipurpose knife, manual can opener, and hand sanitizer. If you have a camp stove, store it with your emergency food kit as well as fuel and a pot or pan.
- If you have pets, remember to include their water and food needs.

Practical Considerations

Store food in a cool, dry place and avoid areas prone to moisture or pests. When packing canned and dried goods, opt for smaller containers that can be consumed in one sitting to prevent spoilage once opened. Check foods every year and rotate out those that are nearing expiry as needed. Some foods may last for several years.

Emergency preparedness is essential for every household, and a well-planned food kit can provide comfort, nutrition, and safety during crises. By incorporating a variety of non-perishable items and water, you can ensure that you and your family remain well-nourished and prepared for any emergency.

Setting aside food for emergencies may not be possible for everyone due to cost. There may be resources in your social network or community to go to in case of emergency. Call, text, or chat with 2-1-1 Alberta (ab.211.ca/) to find out about financial benefits, programs, and services.

Dear Neighbours,

The spring session of the Alberta legislature ended in May just as it began in February, with the UCP government shrouded in a scandal that shockingly gets worse with every new development or revelation.

In April, UCP MLA Peter Guthrie, who called out his party over its handling of the investigation into allegations of corruption in multi-million-dollar private surgery contracts, was kicked out of the UCP caucus.

In the middle of May, the *Globe and Mail* reported that “Danielle Smith’s former chief of staff lived in a home owned by a sister of Sam Mraiche, a businessman whose dealings with Alberta Health Services are subject to multiple investigations.”

And in late May, the *Globe and Mail* revealed that Alberta handed over \$70 million for Turkish Tylenol, “paying a price more than six times greater than what the provincial health authority would normally pay for the same volume of product”, in a deal that did not protect Albertans and cost taxpayers over \$15,000 a bottle.

This summer, I’ve been talking to a lot of people at Stampede, dog parks, and in and around Marda Loop, and they’ve told me that Alberta is better off in Canada.

The majority of Albertans know as a country; we are stronger together.

That’s why this summer especially I am looking forward to celebrating everything about our province, our country, and the people who call it home; the things that makes me so proud to be an Albertan and a Canadian.
